10. On or about February 11, 2011, while employed as a Women's Health Nurse Practitioner at Stephenville Medical & Surgical Center, Stephenville, Texas, Respondent failed to report sexual abuse of minor 16-year-old Patient AH to the proper authorities, who was seen at the clinic for a routine gynecological exam and informed Respondent that she was sexually active with a 20-year-old male. 11. In response to Finding of Fact Number Ten (10), Respondent states that a sixteen year old female came in to our clinic for a routine gynecologic exam, desiring birth control and Gardasil. Respondent explains that during the intake, she discovered the patient's sex partner was twenty years old, so began filling out an abuse form. Respondent adds that she delegated the completion this form to another staff member for reporting to authorities with implication so she could proceed to her next patient. Respondent states that although she does not have a memory of this incident, a review of the chart implied that the chart was not available for her to review at the end of the working day since there was no additional notation from her on this case. Since this incident, Respondent states she has developed, a tracking system that can aid against this type of oversight and better insure continuity of care.
12. On or about March 13, 2010, Respondent was arrested for Driving While Intoxicated in Erath County, Stephenville, Texas. On June 25, 2010, Respondent was charged with OPERATING A MOTOR VEHICLE WHILE INTOXICATED. Respondent asserts that since her subsequent arrest for suspected DWI, she has had an opportunity to examine her actions as they relate to her arrests and has come to the conclusion that she has been using alcohol instead of healthy coping mechanisms and now has a desire to better educate and regulate herself. Respondent states she has been attending Alcoholics Anonymous since January 22, 2010 and has maintained sobriety. Additionally, Respondent states she has learned different coping skills through private counseling, has been in contact with Star Council on Substance Abuse, and is currently attending classes pertaining to alcohol education. Respondent asserts that it is her hope and intention to better herself through education, counseling and a network of support to avoid any further issues concerning alcohol.
15. The Board received a letter from Respondent's AA sponsor, who verifies Respondent sobriety, and a letter from her therapist, who asserts that Respondent has been in therapy since 2010. Also received by the Board is a letter from Respondent's supervising physician, Janie McMillion, M.D. Dr. McMillion states that Respondent has never shown any attendance or punctuality issues and has never shown any decision making or patient related concerns. Dr. McMillion adds that Respondent has taken her problem very seriously and immediately implemented random drug and alcohol testing, all of which have been negative. According to Dr. McMillion, there are small number of healthcare providers in their community, who provide care for indigent or underfunded obstetrical patients. Dr. McMillion asserts that Respondent is an invaluable provider for these and other patients that have limited access to care. Dr. McMillion adds that it would be a significant hardship for these patients if Respondent were unable to continue to practice.
16. The Board received negative results of random Breath Alcohol Tests submitted by Respondent's employer, Stephenville Medical and Surgical Clinic.
17. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.
