Effective this 13th day of June, 2011.

Executive Director on behalf
of said Board

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Registered Nurse	§	AGREED
License Number 244064	§	
issued to JANET CLAIRE WALLACE	§	ORDER

An investigation by the Texas Board of Nursing, hereinafter referred to as the Board, produced evidence indicating that JANET CLAIRE WALLACE, hereinafter referred to as RESPONDENT, Registered Nurse Nurse License Number 244064, may have violated Section 301.452(b)(10) & (13), Texas Occupations Code.

An informal conference was held on April 30, 2009, at the office of the Texas Board of Nursing, in accordance with Section 301.464, of the Texas Occupations Code.

Respondent appeared in person. Respondent was represented by Nancy Roper Willson, Attorney at Law. In attendance were Katherine A. Thomas, MN, RN, Executive Director; Kyle Hensley, Assistant General Counsel; and Cynthia A. Smith, Supervising Investigator.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received an Associate Degree in Nursing from El Centro College, Dallas, Texas, on May 1, 1978. Respondent was licensed to practice professional nursing in the State of Texas on September 1, 1978.

5. Respondent's professional nursing employment history includes:

1979 - 10/80	Staff Nurse	Bristol General Hospital Dallas, Texas
10/80 - 4/07	Staff Nurse	Methodist Dallas Medical Center Dallas, Texas
4/07 - 6/08	Home Health Nurse	Girling Home Health Dallas, Texas
7/08 - present	Not employed in nursing	

6. At the time of the incidents in Findings of Fact Numbers Seven (7) through Nine (9), Respondent was employed as a Staff Nurse with Methodist Dallas Medical Center, Dallas, Texas, and had been in this position for approximately twenty-seven (27) years.
7. On or about March 15, 2007, while employed as a Staff Nurse at Methodist Dallas Medical Center, Dallas, Texas, Respondent failed to collect a bedside blood specimen for laboratory analysis of Hemoglobin and Hematocrit levels from Patient Number DU00257168, who was hemodynamically unstable, actively bleeding, and in need of immediate surgical intervention. Respondent failed to collect the blood specimen because blood could not be drawn via the peripheral or central line that was in place. Although Respondent had used an i-STAT machine (a portable clinical analyzer system to perform blood analysis at the point of care) to draw capillary blood to check blood sugar results, she failed to utilize the machine to obtain a capillary blood specimen to check the levels for Hemoglobin and Hematocrit, as ordered. Upon arrival to the operating room, staff obtained a blood specimen which resulted in critical levels of Hemoglobin at "5.4" and Hematocrit at "16." Respondent's conduct may have delayed emergent medical intervention which placed the patient at risk of complications from the surgical intervention needed to stabilize the patient's condition.
8. On or about March 15, 2007, while employed as a Staff Nurse at Methodist Dallas Medical Center, Dallas, Texas, Respondent failed to initiate Sepsis Protocol to stabilize Patient Number DU00257168, who had a diagnosis of severe sepsis, was hemodynamically unstable, actively bleeding, and in need of immediate surgical intervention. Specifically, Respondent failed to administer Levophed, to Patient Number DU00257168 when the patient's mean arterial pressure (MAP) fell below "65", failed to collect a blood specimen for stat laboratory analysis, and failed to promptly obtain blood from the Blood Bank to administer to the patient. Respondent's conduct resulted in a delay in treatment and contributed to the further deterioration of the patient's condition.

9. On or about March 15, 2007, while employed as a Staff Nurse at Methodist Dallas Medical Center, Dallas, Texas, Respondent inaccurately documented in the flow sheet blood glucose levels collected from Patient Number DU00257168 as follows:

<u>Accucheck Readings</u>	<u>Flow Sheet</u>
0832 - "113"	0800 - "110"
0915 - "120"	0900 - "113"
1026 - "101"	1000 - "120"
1232 - ""29"	1200 - "100"
No recorded BS	1300 - "89"

Respondent's conduct deprived the patient of timely medical intervention needed to stabilize the patient's critically low blood sugar level of "29" and created an inaccurate record on which subsequent caregivers would base their ongoing medical care.

10. In response to Finding of Fact Number Seven (7), Respondent states she was informed in report by the previous nurse that she had been unable to obtain a blood specimen via the central line and had notified the physician, who ordered that the lab be held until a new central line could be inserted into Patient DU00257168 later that day. Respondent states that she also attempted to draw a blood specimen from the existing central line, but was unable to do so. She was not aware that she could draw blood from an i-STAT machine, however the equipment to do so was not available on her unit.
11. In response to Finding of Fact Number Eight (8), Respondent states that she did not initiate the Sepsis Protocol, because she did not receive the information in report. However, Respondent was told in report of an order for Levophed, should the blood pressure drop below 90. When the physician arrived on the unit at 1300, the blood pressure had been 75-85 for approximately 30 minutes. Respondent informed the physician of the drop in the patient's blood pressure to which the physician stated it was okay since the patient was going to the Operating Room (OR) in about an hour. Another physician saw the patient shortly after that and Respondent states she received no additional instructions. Regarding her failure to promptly obtain blood from the blood bank, Respondent states that the physician had previously ordered two (2) units of packed red blood cells to be placed on hold. When the CRNA from OR was at the bedside, he asked Respondent to contact the blood bank to see if the blood was ready and have it sent to the OR. Respondent was informed by the blood bank that the blood was ready, but she would need to complete a form before the blood could be released. When Respondent relayed this information to the CRNA, and was instructed to complete this form, Respondent refused because she had never had to do this in the past. When Respondent relayed this information to the CRNA, and was instructed to complete this form, Respondent refused because she had never had to do this in the past and the requested form was not available on the unit. After a discussion between the CRNA and another nurse who was on the unit, Respondent retrieved the blood from the blood bank, as ordered. Respondent states that if the CRNA had stated that he wanted to get the blood prior to going to the OR, she would have gladly gone and gotten it.

12. In response to Finding of Fact Number Nine (9), Respondent denies falsifying the medical record regarding the patient's blood sugar. Respondent states that when she performs FSBS and gets a result that she feels is inaccurate, she will automatically recheck and treat appropriately by giving an amp of D50 if ordered, turn off the insulin drip if applicable, and notify the MD. Respondent states that the fact that she did not recheck blood sugar proves that she did not see a questionable reading and feels that she may have misread the glucometer or that it had malfunctioned. Respondent states that it appears the 0832 Accucheck Reading was recorded on the flow sheet at 0900. The 0915 Accucheck Reading was recorded on the flow sheet at 1200 and the 1232 Accucheck Reading of 29 was recorded on the flow sheet as 89 at 1300.
13. Charges were filed on January 27, 2009.
14. Charges were mailed to Respondent on January 28, 2009.
15. Respondent completed Board approved courses entitled "Overview of Texas Nursing-Legal & Ethical Foundation" and "Sharpening Critical Thinking Skills," which would have been a requirement of this Order.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation of Section 301.452(b)(10) & (13), Texas Occupations Code, 22 TEX. ADMIN. CODE §217.11(1)(B),(C),(D),(M),(N) & (P) and 22 TEX. ADMIN. CODE §217.12(1)(A) & (B), (4) and (6)(A).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 244064, heretofore issued to JANET CLAIRE WALLACE, including revocation of Respondent's license to practice professional nursing in the State of Texas.
