

Respondent's professional nursing employment history continued:

8/05 - 3/06	Staff Nurse	Hamlin Memorial Hospital Hamlin, Texas
4/06 - 7/06	Unknown	
8/06 - present	Staff Nurse	Cogdill Memorial Hospital Snyder, Texas

6. At the time of the initial incident, Respondent was employed as a Staff Nurse with Cogdill Memorial Hospital, Snyder, Texas, and had been in this position for four (4) years and three (3) months.
7. On or about November 22, 2010, while employed with Cogdell Memorial Hospital, Snyder, Texas, Respondent falsely documented a physician's order for Clonidine in order to administer Clonidine to Patient Medical Record Number 51958. Respondent's conduct was deceiving and likely to cause injury to the patient from the administration of medication without the benefit of a physician's expertise
8. In response to Finding of Fact Number Seven (7), Respondent states that the patient's elevated blood pressure (198/106) was reported to her several times by the primary nurse, so she attempted to contact the on-call physician, who never returned her phone call. I tried several times to call the on-call dr., Dr. Dunn. Consequently Respondent states that she took matters into her own hands (an action that she wishes she could "do-over") and reviewed the patient's chart to see exactly what was done previously to stabilize the patient's blood pressure. Respondent contends that she saw the patient had an order for Clonidine was written earlier in the day, so she wrote physician's order Clonidine and administered the medication to the patient. Respondent concludes that she will never, now or in the future order any medication, treatment or anything on a doctor's behalf without speaking to the doctor first.
