Executive Director of the Board

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Registered Nurse § AGREED
License Number 739933 §
issued to TAMARA JEAN SALAZAR § ORDER

An investigation by the Texas Board of Nursing, hereinafter referred to as the Bo produced evidence indicating that TAMARA JEAN SALAZAR, hereinafter referred to Respondent, Registered Nurse License Number 739933, may have violated Section 301.452(b)(10)&(13), Texas Occupations Code.

An informal conference was held on October 5, 2010, at the office of the Texas Board of Nursing, in accordance with Section 301.464 of the Texas Occupations Code.

Respondent participated Telephonically. Respondent was represented by Jon E. Porter, Attorney at Law. In attendance were Denise Benbow, MSN, RN, Executive Director's Designee; Board Member; Deborah Hughes Bell, CLU, ChFC, Consumer Member; Lance Brenton, Assistant General Counsel; Anthony L. Diggs, MSCJ, Director, Enforcement Division; and Mike Abul- Saud, RN, Investigator.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent's license is currently delinquent in the State of Texas.
4. Respondent received an Associate Degree in Nursing from Riverside City College, Riverside, California, on June 10, 2000. Respondent was licensed to practice professional nursing in the State of Texas on April 5, 2007.

5. Respondent's professional nursing employment history includes:

9/00-5/02	Staff Nurse Loma Linda University Medical Center Loma Linda, California
10/01-9/03	Staff Nurse Riverside Community Hospital Riverside, California
9/03-5/04	Staff Nurse Premier Nursing Services Long Beach, California
6/05- 3/07	Unknown
4/07-8/07	Staff Nurse Hendrick Medical Center Abilene, Texas
8/07-Present	Unknown

6. At the time of the incidents in Findings of Fact Numbers Seven (7), Nine (9), Eleven (11), and Thirteen (13), Respondent was employed as a Registered Nurse with Hendrick Medical Center, Abilene, Texas, and had been in this position for approximately three (3) months.
7. On or about May 30, 2007, while employed with Hendrick Medical Center, Abilene, Texas, Respondent administered Coreg to Patient MR# 769301 in excess of physician's order. Respondent administered Coreg "25mg" po to Patient MR# 769301, instead of Coreg "12.5mg" po, as ordered. Respondent's action was likely to injure the patient in that the administration of Coreg in excess frequency or dosage of the physician's order could result in the patient suffering from adverse effects.
8. In response to Finding of Fact Number Seven (7), Respondent states that she misread the medication order as printed on the Medication Administration Record (MAR). Respondent states that the medication order was ambiguous, with the larger dose of Coreg 25mgs printed in bold font, while the intended dose of 12.5mgs was printed in small print. Additionally, the medication was dispensed in a 25mg dose; a systems problem which added to the confusion. Respondent adds that the patient suffered no ill effect from her error.
9. On or about June 27, 2007, while employed with Hendrick Medical Center, Abilene, Texas, Respondent failed to administer Doxycycline 100 mg po to Patient MR# 770235 as ordered. Instead, Respondent administered Doxycycline Intravenously (IVPB) to said patient.

Respondent's actions exposed Patient MR# 770235 to the risk of harm due to unnecessary administration of medication intravenously.

10. In response to finding of Fact Number Nine (9), Respondent states systems errors contributed to this error. The pharmacy sent a Doxycycline (IVPB) to the floor, her Charge nurse gave her the medication, and all other medications for the patient was via intravenous delivery as the patient had great difficulty swallowing. Therefore, she believed the physician had changed the medication administration route. The medical records reflect that the patient was not harmed by the medication administration route.
11. On or about June 28, 2007, while employed with Hendrick Medical Center, Abilene, Texas, Respondent failed to administer Ifex 3700 mg Intravenously (IV) to Patient MR# 00522826 in a timely manner in that Respondent prepared said medication for infusion, but failed to start the infusion pump. Subsequently, the patient did not receive Ifex 3700 mg until the next scheduled dose. Respondent's actions denied Patient MR# 00522826 of the intended therapeutic effects of the medication.
12. In response to Finding of Fact Number Eleven (11), Respondent states that after connecting the medication administration tubing and pump to the patient's Percutaneously Inserted Central Catheter (PICC) line, the infusion pump sounded error alarms probably due to line occlusion. Respondent states that she then flushed the PICC line several times until the problem was corrected. Respondent adds that she left the patient's room after ensuring that the medication was infusing. Respondent adds that when she returned later, she discovered that someone had turned off the infusion pump for unknown reasons. The medication was restarted at the next shift, causing a delay in administration of the medication by approximately two hours. Ifex is administered once a day and not a time specific medication. The patient did not suffer any harm as a result of the delay.
13. Respondent currently resides outside the United States of America with her spouse, who is on military assignment, and does not plan to return for a period of at least two (2) years. Respondent's license shall be placed on inactive status until her return.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation of Section 301.452(b)(13), Texas Occupations Code, 22 TEX. ADMIN. CODE §217.11(1)(B), (1)(C), (1)(D).

4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 739933, heretofore issued to TAMARA JEAN SALAZAR, including revocation of Respondent's license to practice professional nursing in the State of Texas.

ORDER

IT IS THEREFORE AGREED and ORDERED, subject to ratification by the Texas Board of Nursing, that RESPONDENT SHALL receive the sanction of a WARNING WITH STIPULATIONS, and RESPONDENT SHALL comply in all respects with the Nursing Practice Act, Texas Occupations Code, §§301.001 *et seq.*, the Rules and Regulations Relating to Nurse Education, Licensure and Practice, 22 TEX.
