6. From on or about November 8, 2008 to the present, Respondent lacked fitness to practice vocational nursing in that she submitted a License Renewal Form to the office of the Board and disclosed that she received a dual diagnosis of Alcohol and Benzodiazepine Dependence and Bipolar Disorder NOS, while in the United States Army and began participation in the Army Substance Abuse Program, Brooke Army Medical Center, Fort Sam Houston, Texas. Respondent was discharged from the program after relapsing on Alcohol in November 2008. Respondent's condition could affect her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could affect her ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing patients in potential danger.
7. Regarding the conduct outlined in Finding of Fact Number Six (6), Respondent states that she is "speechless" and "revolted" by the allegations. She is "an honest and compassionate person that would never deceive, defraud, or injure anyone, patient or public." She currently works in home health pediatrics. She adds, "I do admit to an occurrence of behavior that could be considered as irresponsible upon doctors informing me that I would not live another ten years due to a heart condition. I was in shock and denial." She further states the charge

is "unwarranted" because she was not working as a nurse at the time; "therefore, "unsafe practice" could not have happened." She adds that she admitted to the diagnosis of Bipolar Disorder NOS and alcohol/benzodiazepine dependency when submitting her license renewal and has never violated the professional boundaries of the nurse/patient relationship. The Respondent is willing to submit references, an employment history and drug tests, but does not believe TPAPN is necessary. She states she completed rehabilitation and has a sobriety date of March 12, 2010.

8. Formal Charges were filed on February 9, 2010.
9. Formal Charges were mailed to Respondent on February 9, 2010.
10. Respondent, by her signature to this Order, expresses her desire to voluntarily surrender her license to practice nursing in the State of Texas.
11. The Board policy implementing Rule 213.29 in effect on the date of this Agreed Order provides discretion by the Executive Director for consideration of conditional reinstatement after proof of twelve (12) consecutive months of abstinence from alcohol and drugs followed by licensure limitations/stipulations and/or peer assistance program participation.
12. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.
