BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Vocational Nurse § AGREED
License Number 156904 §
issued to NANCY LEE BETTS § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of NANCY LEE BETTS, Vocational Nurse License Number 156904 hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(13), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on July 30, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice vocational nursing in the State of Texas.
4. Respondent received a Certificate in Vocational Nursing from Holmes Junior College, Grenada, Mississippi, on January 23, 1987. Respondent was licensed to practice practical nursing in the State of Mississippi on May 27, 1987; was licensed to practice practical nursing in the State of Michigan on September 14, 1988; was licensed to practice practical nursing in the State of Illinois on September 18, 1993; and was licensed to practice vocational nursing in the State of Texas on March 1, 1996.

5. Respondent's nursing employment history includes:

1987 - 1995	Unknown	
01/1996 - 03/1997	Charge Nurse and Treatment Nurse	Kenwood Nursing Dallas, Texas
04/1997 - 05/1997	Staff Nurse Cardiac Step Down Unit	Navarro Regional Hospital Corsicana, Texas
06/1997 - 01/2000	Charge Nurse	Westside Development Center Corsicana, Texas
02/2000 - 10/2006	Float Nurse Full Time	Palestine Regional Med. Ctr. Palestine, Texas
11/2006 - Unknown	Emergency Room and Infirmary Nurse	The University of Texas Medical Branch-Correctional Managed Care (UTMB-CMC) Galveston, Texas, assigned to Texas Department of Criminal Justice (TDCJ), Boyd Unit Kyle, Texas

6. At the time of the initial incident, Respondent was employed as an Emergency Room and Infirmary Nurse with UTMB-CMC, Galveston, Texas, assigned to TDCJ, Boyd Unit, Kyle, Texas, and had been in this position for nine (9) months.

7. On or about August 8, 2007, while employed with UTMB-CMC, Galveston, Texas, and assigned to TDCJ, Boyd Unit, Kyle, Texas, Respondent:

- Failed to perform and/or document a baseline focused neurological assessment, including "Speech, Movement, Gait, Glasgow Coma Score," or a complete ongoing focused neurological assessment, including Voluntary Motor Movement, size and response of pupils, or normal or abnormal speech, of Patient #1422255, as required for altered level of consciousness; and
- Failed to notify the physician or mid-level practitioner immediately for recent head trauma, confusion, and/or difficulty walking of the aforementioned patient.

Respondent assessed the patient at 17:15 and kept him in medical until 18:50, then sent him back to his cell. On August 9, 2007, at 03:16, the patient was found unresponsive in his cell on his knees slumped against his bunk. The patient was deceased due to a seizure. Respondent's conduct may have contributed to the patient's demise.

8. In response to the incidents in Finding of Fact Number Seven (7), Respondent states that she was not given any in-services for that unit or assigned the "buddy system." The unit manager brought up the use of a "Neurological Baseline Assessment Form" the day after the incident.

Respondent had been working with a staff member that was more familiar with the unit's procedures who told her that her documentation was good and the offender (patient) was doing well and to just set him up with an appointment in the morning. Respondent states that the patient's pupils were equal and reactive to light, and that he got off the stretcher without assistance and maintained a steady gait to change his clothes. Respondent kept the patient in the medical area for over two (2) hours due to "it being count time and no one could go back to their units." When the patient was allowed to leave medical, Respondent indicates that he was stable, fully oriented with steady gait, denied headaches or pain, and had no facial edema or blurred vision, his vital signs and oxygen saturations were stable, and he had no feeling of dizziness.
