In the Matter of Vocational Nurse           §       AGREED  
License Number 200504                       §  
issued to ODELIA V. BLOYS                 §       ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the B considered the matter of ODELIA V. BLOYS, Vocational Nurse License Number 200

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order offered on April 25, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice vocational nursing in the State of Texas.
4. Respondent received a Certificate in Vocational Nursing from South Plains College, Lubbock, Texas, on August 19, 2005. Respondent was licensed to practice vocational nursing in the State of Texas on September 29, 2005.
5. Respondent's nursing employment history includes:
 

09/2005 - 02/2008	Staff Nurse	University Medical Center Health System Lubbock, Texas
03/2008 - Present	Unknown	

6. At the time of the initial incident in Finding of Fact Number Seven (7), Respondent was employed as a Staff Nurse with University Medical Center Health System, Lubbock, Texas, and had been in this position for two (2) years and five (5) months.
7. On or about February 3, 2008, and February 11, 2008, while employed as a Staff Nurse with University Medical Center Health System, Lubbock, Texas, Respondent:
  - Failed to administer medications as ordered and as scheduled to five (5) patients on February 3, 2008, and to two (2) patients on February 11, 2008. Respondent falsely documented the administration of the medications in the medical records;
  - Withdrew medications multiple times from the Pyxis more than thirty (30) minutes after documented times of administration; and
  - Documented times of medication administration in the electronic Medication Administration Record of more than an hour earlier than when Respondent actually entered the data into the computer on multiple occasions.Respondent's conduct resulted in inaccurate medical records and was likely to injure patients from non-efficacious care.
8. In response to the incidents in Finding of Fact Number Seven (7), Respondent denies and attributes the errors to failings of the Pyxis, pharmacy staff, and other nurses who had previously entered the Pyxis, had not actually withdrawn medications, but had documented that the medications had been administered. According to Respondent, there were many times that she personally, along with co-workers, reported to the Charge Nurse or the Nurse Manager that medications were left in the medication drawers from previous shifts without being administered and the patients were being charged each time a medication was pulled, so her solution was to administer the pulled medications in the medication drawers so that the patients didn't get charged again since they didn't receive the medication the first time. Respondent states that she thought she "was covered" since she had not only the Charge Nurse as a witness, but also had other floor nurses as witnesses. Respondent asserts that her medications were given at appropriate times and explains that although nurses are supposed to document medications electronically, when administered in the patient's rooms on a rolling computer, because there were never sufficient computers available, she, like the other nurses, would document when time allowed between patient care. Respondent concludes that she feels that the Nurse Manager had a vendetta against her, and that she should have walked away from this job long before "this ever happened" but since this was her dream job, she didn't want to be bullied away from it and she didn't want to feel like a failure for not "making it work out" between she and the Nurse Manager.

#### CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.

3. The evidence received is sufficient to prove violations of Section 301.452(b)(10)&(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §§217.11(1)(A),(1)(B),(1)(C)&(1)(D) and 217.12 (1)(A),(B)&(C),(4),(6)(A)&(6)(H).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Vocational Nurse License Number 200504, heretofore issued to ODELIA V. BLOYS, including revocation of Respondent's license to practice vocational nursing in the State of Texas.
