In the Matter of Vocational Nurse                    §        AGREED  
License Number 204894                                    §  
issued to CRISTEY LYNN GALLEGOS                §        ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of CRISTEY LYNN GALLEGOS, Vocational Nurse License Number 204894, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on May 4, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

7. On or about February 13, 2010, while employed with Angels Unlimited Home Health, San Antonio, Texas, Respondent administered Novolin R 21 units subcutaneous to Patient Number AUHH192, instead of Lantus 21 units subcutaneous, as ordered. She obtained the patient's weight and vital signs. Then she proceeded to check the patient's blood sugar using aseptic technique. The patient's blood sugar was 123mg/dl. "I then proceeded to check the patient's medication sheet to make sure that the patient was still continuing to take Lantus 21u. I went to the fridge and grabbed the Novolin R instead of the Lantus drew up the 21 units of Novolin R and administered it SQ to the left upper arm. Then I went to replace the insulin in the fridge and realized that I had given the wrong insulin to the patient. I informed the husband of what had happened while I proceeded to call my nurse supervisor to inform her of the situation. She had first informed me that I needed to go back at noon and check on the patient plus call the doctor. (The doctor's) office was called and the nurse practitioner

was on call, (and) she instructed me to either sit with the patient for 5 hours and take the blood sugar every 30 minutes or call the paramedic 911. I informed her that I would be calling 911 to take her to the emergency room. The patient (was) eating breakfast at this time and (was) alert and oriented as well as asymptomatic no signs of hypoglycemia.”
