BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Registered Nurse § AGREED
License Number 627307 § ORDER
issued to ANGELLIA D. GAYTAN §

On this day the Texas Board of Nursing, hereinafter referred to as the Board considered the matter of ANGELLIA D. GAYTAN, Registered Nurse License Number 627307 hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10),(12)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on March 28, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received an Associate Degree in Nursing from Daytona Beach Community College, Daytona Beach, Florida on December 1, 1995. Respondent was licensed to practice professional nursing in the State of Texas on March 25, 1996.
5. Respondent's professional nursing employment history includes:

3/96-3/99	RN	Kingwood Medical Hospital Kingwood, Texas
-----------	----	--

Respondent's professional nursing employment history continued:

4/99-8/00	RN	St. Lukes Episcopal Hospital Houston, Texas
09/00-11/00	RN	The Methodist Hospital Houston, Texas
12/00-6/02	RN	Methodist Willowbrook Hospital Houston, Texas

10/07	RN	North Cypress Medical Center Cypress, Texas
2/08-7/08	RN	Corpus Christi Medical Center Corpus Christi, Texas
8/08-Present	Unknown	

6. At the time of the initial incident in Finding of Fact Number Seven (7), Respondent was employed as a Registered Nurse with North Cypress Medical Center, Cypress, Texas, and had been in this position for approximately one (1) month.

7. On or about October 26, 2007, while employed with North Cypress Medical Center, Cypress, Texas, Respondent lacked fitness to practice professional nursing in that she exhibited impaired behavior while on duty, including, but not limited to, acting very slow and having slurred speech. After her shift, Respondent left work and was in a car accident. Respondent's condition could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.
8. In Response to Findings of Fact Number Seven (7), Respondent states in January 2004 she underwent Gastric By-Pass surgery and had lost 150lbs. Unfortunately, none of her medications had been adjusted to compensate for her drastic weight loss. Respondent states she was taking herself off two anti-depressants (Cymbalta and Paxil) at the time of the complaint, which resulted in a series of seizure activity due to the sudden stop of Serotonin Reuptake Inhibitors. The automobile accident referenced was caused by the 3rd seizure. Respondent states she not only had a seizure but a right front tire blew out on her 2005 Dodge Ram. It was not a single car accident, but a blow out. Respondent states she is a capable RN and takes her profession very seriously.
9. On or about July 9, 2008, while employed with Corpus Christi Medical Center, Corpus Christi, Texas, and working at Doctors' Regional Medical Center, Corpus, Christi, Respondent failed to adequately care for patient MR #395498, in that she did not intervene and/or notify a physician in a timely manner when the mean arterial blood pressure of the aforementioned patient was below sixty (60) for an extended period of time and the patient had no urinary output. Respondent's conduct deprived the physician of the opportunity to institute timely medical interventions which may have been required to stabilize the patient's condition.
10. On or about July 9, 2008, while employed with Corpus Christi Medical Center, Corpus Christi, Texas, and working at Doctors' Regional Medical Center, Corpus, Christi, Respondent failed to follow policy and procedure in that she failed to escort patient MR #395498 or delegate a licensed professional to escort said patient to imaging procedures. Respondent's conduct failed to promote a safe environment and deprived the patient of detection and timely medical intervention in the event the patient experienced a change in condition while on the way to the imaging procedures.

11. On or about July 9, 2008, while employed with Corpus Christi Medical Center, Corpus Christi, Texas, and working at Doctors' Regional Medical Center, Corpus, Christi, Respondent failed to utilize monitoring equipment for patient MR # 395498 during transport to imaging procedures. Respondent's conduct exposed patient to risk of harm in that lack of information from the monitoring equipment could have deprived the physician of the opportunity to institute timely medical interventions.
12. On or about July 9, 2008, while employed with Corpus Christi Medical Center, Corpus Christi, Texas, and working at Doctors' Regional Medical Center, Corpus, Christi, Respondent failed to properly assess and/or document assessment of patient MR # 395498, in that she did not completely document patient's vital signs for approximately three (3) hours. Respondent's failure to assess deprived the patient of detection and timely medical intervention in the event the patient experienced a change in condition. Additionally, Respondent's failure to document an assessment was likely to injure the patient in that subsequent care givers would rely on her documentation to provide ongoing medical care for the patient.
14. In response to Findings of Fact Numbers Nine (9), through Twelve (12), Respondent states she was ill on the day in question. The patient was placed on continuous blood pressure monitoring and EKG evaluation, then transported to the X-ray department. Respondent states this is where she went to evaluate the patient while she was out of the department. The patient was alert and oriented, however, the patient's blood pressure was low but the patient's volume was being replaced and no other medical/drug management had been ordered from the physician. Respondent states she was later released due to illness (severe nausea, vomiting and fever). The patient was taken over from the Charge nurse and transported to the Intensive Care Unit.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation of Section 301.452(b)(10),(12)&(13), Texas Occupations Code, 22 TEX. ADMIN. CODE §217.11(1)(A),(B),(D), &(M)&(3)(A) and 22 TEX. ADMIN. CODE §217.12(1)(A),(B) &(E),(4)&(5).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 627307, heretofore issued to ANGELLIA D. GAYTAN, including revocation of Respondent's license to practice professional nursing in the State of Texas.
