

BEFORE THE TEXAS BOARD OF NURSING

I do hereby certify this to be a complete, accurate, and true copy of the document which is on file or is of record in the offices of the Texas Board of Nursing.
Katherine A. Thomas
Executive Director of the Board

In the Matter of Registered Nurse § AGREED
License Number 643935 §
issued to GRACE M. (DUNTON) KING § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of GRACE M. (DUNTON) KING, Registered Nurse License Number 643935, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(13), Texas Occupations Code. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order offered on April 12, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received a Baccalaureate Degree in Nursing from Medcenter One, College of Nursing, Bismark, North Dakota, in May 1997. Respondent was licensed to practice professional nursing in the State of Texas on July 22, 1997.
5. Respondent's professional nursing employment history includes:

1997 - 03/99	Staff Nurse	Scenic Mountain Medical Center Big Spring, Texas
04/99 - Present	Staff Nurse Labor & Delivery	Medical Center Hospital Odessa, Texas

6. At the time of the incidents, Respondent was employed as a Staff Nurse in the Labor and Delivery Department with Medical Center Hospital, Odessa, Texas, and had been in this position for six (6) years and nine (9) months.
7. On or about January 20, 2006, while employed as a Staff Nurse in the Labor and Delivery Department at Medical Center Hospital, Odessa, Texas, and caring for Patient Number 469235, Respondent administered Terbutaline to the patient without a physician's order. The physician denied giving the order for Terbutaline. Respondent's conduct exposed the patient unnecessarily to a risk of harm from adverse reactions from the administration of Terbutaline without a physician's order.
8. On or about January 20, 2006, while employed as a Staff Nurse in the Labor and Delivery Department with Medical Center Hospital, Odessa, Texas, and caring for Patient Number 469235, Respondent failed to document changes in the patient's condition. Respondent failed to document contraction frequency and duration until 8:30 a.m., which was after she administered the first dose of Terbutaline. Respondent's conduct was likely to deceive other caregivers who needed complete information on which to base their care.
9. On or about January 20, 2006, while employed as a Staff Nurse in the Labor and Delivery Department with Medical Center Hospital, Odessa, Texas, and caring for Patient Number 469235, Respondent falsely documented in the medical record that she attempted to reach the physician regarding the patient's status at 0720. The physician denied receiving the telephone call at 0720, and the call was not reflected in the physician's telephone logs. Respondent's conduct was likely to deceive the physician who needed complete information on which to base her care.
10. Respondent submitted verification of her successful completion of the course approved by the Association of Women's Health, Obstetric and Neonatal Nurses (AWHONN) titled "Intermediate Fetal Monitoring Course" dated September 18, 2006, which would have been required under this Order.
11. In response to the allegations, Respondent states that she received the Patient MC at 7:15am and the patient had been induced because she was contracting and past full term. The patient had refused induction several weeks earlier and she was contracting too rapidly. The attending physician was not in the hospital. At 7:19am the patient requested an epidural for pain and it was administered. The patient's membranes ruptured while the patient was setting up for the epidural. The patient was rapidly progressing in labor and the infant's heartbeat was going up and down. At approximately 7:44 am Respondent administered Terbutaline to slow down the contractions. The hospital policy allowed Terbutaline to be administered without prior order of the attending physician if the fetal heart rate is non-reassuring or if a single contraction lasted more than two minutes or the frequency of the contractions is more than five contractions in a ten minute period. Conditions were changing rapidly and were also deteriorating. There was no time to confer with the physician and there was no staff back up to Respondent for her to stop what she was doing prior to the administration of Terbutaline to contact the attending physician. Respondent could not leave the room during

the labor. The unit secretary attempted to page the attending physician and Respondent paged the attending physician at 7:52am and talked to the physician at 7:54am. At that time the physician was receiving a full report on the condition of the patient and the details of the labor. The physician told Respondent that she was on her way to the hospital and Respondent notified her of the administration of Terbutaline and she did not question the administration of the drug. The physician advised Respondent to continue to prepare for delivery. At 8:18am Respondent left the room and paged the attending physician. At 8:19am the physician returned the call and said that she was in the building and that she would be there shortly. At 8:25am the baby was delivered and the neonatal unit picked up the baby. Respondent denies falsifying any documentation. Respondent advises that at all times relevant to her performance the unit secretary and the charge nurse were present. The hospital had a sentinal meeting about the incident within approximately sixty (60) days of the incident. The attending physician was in attendance at the meeting and made no allegations that Respondent did not consult the attending physician prior to administering of Terbutaline. Respondent has attended a Intermediate Fetal Monitoring course on September 18, 2006 and an Advanced Fetal Monitoring course on November 12, 2006, at Texas Tech Medical School. Respondent denies the allegations that she failed to document the changes in the patient's condition.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violations of Section 301.452(b)(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §217.11(1)(A),(C),(D)&(P).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 643935, heretofore issued to GRACE M.
