

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Registered Nurse § AGREED
License Number 728461, issue to §
COURTNEY RHIANNON PRINGLE § ORDER

I do hereby certify this to be a complete, accurate, and true copy of the document which is on file or is of record in the offices of the Texas Board of Nursing.
Katherine A. Thomas
Executive Director of the Board

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of COURTNEY RHIANNON PRINGLE, Registered Nurse License Number 728461, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order offered on May 5, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received a Baccalaureate Degree in Nursing from The University of Texas Medical Branch, Galveston, Texas, on April 21, 2006. Respondent was licensed to practice professional nursing in the State of Texas on June 13, 2006.
5. Respondent's nursing employment history includes:

05/06 - 02/08	Staff Nurse SICU	Parkland Health & Hospital System Dallas, Texas
03/08 - Present	Unknown	

6. At the time of the incident, Respondent was employed as a Staff Nurse with Parkland Health & Hospital System, Dallas, Texas, and had been in this position for one (1) year and nine (9) months.
7. On or about December 18, 2007, while employed with Parkland Health & Hospital System, Dallas, Texas, failed to accurately and completely document the status and nursing care she provided to Patient Medical Record Number 2159397, including the blood glucose results and tube feeding. Respondent falsely documented a blood glucose reading of 118 at 1600 for Patient Medical Record Number 2159397. That result of the blood glucose documented could not be verified on any glucometer in the Surgical Intensive Care Unit (SICU) for that day on any patient. In addition, Respondent documented that the patient continued to receive Replete at 75cc/hr after the patient's feeding tube had been removed. A blood sugar of 58 was found on a glucometer at 1538 that had Respondent's Log-in ID number on it which was not documented in the medical record. Respondent's conduct resulted in an inaccurate medical record and exposed the patient unnecessarily to a risk of harm in that subsequent care givers relied on the accuracy of the information while providing care to the patient.
8. In response to Finding of Fact Number Seven (7), Respondent states that "I was accused by Parkland of making up a bedside glucose value of 118 at 1600 and documenting that value when the glucometer said that someone other than me checked the patient's glucose at that time and the glucometer reading was 58. I was also accused of writing in the nurses' notes that the patient was receiving 75cc/hr of Replete between the hours of 1300-1900 when my flowsheet also said the patient was extubated and that OGT was removed at 1305. Quite simply, I documented a blood sugar of 118 because that is what I understood to be correct. I did not take the blood sugar reading for this patient at 1600. The unit policy was that a nurse or tech or anyone who has completed the "Point of Care Testing" can check bedside glucose. Unit techs usually take bedside glucose reading for nurses who are taking care of two critical patients. I recall that I had the unit tech check the blood glucose at 1600 for me because I was busy with two patients. This is evidenced by the 1600 bedside glucometer reading having someone else's employee ID number. I asked the tech what the bedside glucose was and I recorded 118 because that is what I was told. It is possible there could have been a communication breakdown and I could have heard wrong, but I recorded that value I believed to be correct. . . The things I can attest that absolutely did not happen are that I was made aware of low blood sugar reading (58) failed to treat the low blood sugar and them for no reason, contemporaneously recorded a value I knew to be false. . . I did pull the feeding tube (OGT) at 1305 along with the breathing tube, but I had placed a new feeding tube (DHT) immediately thereafter as ordered by Dr. Stoos at 1405. However, the patient did not receive parenteral nutrition because the DHT would not be checked or cleared for use until four (4) hours after placement according to Parkland protocol and according to the physician orders received at 1405 . . . I erroneously continued to document 75cc/hr of Replete based on habit. . . I simply forgot to stop recording the TF Replete. . ."

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation of Section 301.452(b)(10)&(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §§217.11(1)(A)&(D) and 217.12(1)(B) &(4).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 728461, heretofore issued to COURTNEY RHIANNON PRINGLE, including revocation of Respondent's license to practice professional nursing in the State of Texas.
