

6. At the time of the incidents, Respondent was employed as a Registered Nurse with Parkland Health & Hospital System, Dallas, Texas, and had been in this position for two (2) years and one (1) month.
7. On or about June 9, 2008, while employed as a Registered Nurse with Parkland Health & Hospital System, Dallas, Texas, Respondent administered Ativan 4mg to Patient Medical Record Number 4118915 instead of Ativan 2mg as ordered by the physician. Respondent's conduct was likely to injure the patient in that the administration of Ativan in excess dosage of the physician's order could result in the patient suffering from adverse reactions.
8. On or about June 9, 2008, while employed as a Registered Nurse with Parkland Health & Hospital System, Dallas, Texas, Respondent falsely documented that she administered Ativan 2mg in the clinical records of Patient Medical Record Number 4118915 after administering twice the prescribed amount. In addition, Respondent failed to notify the physician and staff of the medication error and failed to complete an incident report. Respondent's conduct was likely to deceive other caregivers who needed complete information on which to base their care.
9. In response to Findings of Fact Numbers (7) and Eight (8), Respondent describes a short handed shift. She admits to making a mistake in administering twice the amount of Ativan to a patient, and falsifying the records to cover up her mistake. As the shift progressed, she felt bad about what she did and confessed to her manager.
