Executive Director of the Board

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Registered Nurse § AGREED
License Number 732304 §
issued to NICOLE RENEE PENA § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board considered the matter of NICOLE RENEE PENA, Registered Nurse License Number 732304 hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order offered on April 11, 2010, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received a Degree in Nursing from El Centro College, Dallas, Texas on May 11, 2006. Respondent was licensed to practice professional nursing in the State of Texas on August 1, 2006.
5. Respondent's nursing employment history includes:

3/06 - 2/08	GN/Staff Nurse	Baylor Health Care System, Dallas, Texas
3/08 - Present	Unknown	

6. At the time of the initial incident in Finding of Fact Number (7), Respondent was employed as a Staff Nurse with Baylor Health Care System, Dallas, Texas, and had been in this position for one (1) year and six months.
7. On or about September 27, 2007, while employed at Baylor Health Care System, Dallas, Texas, Respondent transported Patient Medical Record #46808978 to another unit with a controlled Medication, an ampule of 2 mg Dilaudid, taped to the patient's medical record and left the medication unattended. Respondent's conduct failed to take precautions to prevent the loss of medications and placed the pharmacy in violation of Chapter 481 of the Texas Health and Safety Code (Texas Controlled Substances Act).
8. In response to Finding of Fact Number Seven (7), Respondent went on break and during this break, another staff nurse took over care and pulled Dilaudid 2mg from the pyxis "just in case" the patient needed it. Shortly after Respondent's break, the patient met criteria to be discharged from the PACU. Respondent thought it would be helpful to the floor nurse to send the patient to the floor with the Dilaudid. Respondent asserts that at the time, she had no idea that this was not appropriate.
9. On or about October 29, 2007, while employed at Baylor Health Care System, Dallas, Texas, Respondent failed to administer 1 gram Ancef intravenously (IV) to Patient LTR# 00623463, at 1720, as ordered. Respondent's conduct exposed the patient to risk of non-efficacious treatment, which may have prolonged the patient's recovery.
10. On or about October 29, 2007, while employed at Baylor Health Care System, Dallas, Texas, Respondent failed to update the Patient Controlled Analgesia Pump record for Patient LTR #00623463, in a timely manner. Respondent's conduct created an incomplete medical record on which subsequent caregivers would rely to provide ongoing medical care and may have resulted in medication overdose.
11. On or about October 29, 2007, while employed at Baylor Health Care System, Dallas, Texas, Respondent failed to perform a neurological assessment on Patient LTR# 00623463 status post lumbar hardware removal. Respondent's conduct deprived the patient of timely detection and medical intervention in the event that the patient experienced a change in neurological status. Additionally, Respondent's conduct deprived subsequent caregivers of essential information on which to base their ongoing medical care.

12. In response to Findings of Fact Numbers Nine (9) through Eleven (11), Respondent states that this patient had pain issues the entire time in PACU. Respondent administered pain medications as needed, but was constantly watching the patient's blood pressure because it was progressively getting lower. Respondent asserts that she was constantly contacting the physician to get orders to bolus this patient and while meeting several of these patients' needs, admits that she missed the order for Ancef and failed to update the PCA record in a timely manner. In response to her failure to document the patient's neurological assessment, Respondent states that the patient was talking, clearly alert and oriented, sensation, strength and movement, all neurologically intact. Respondent admits that she forgot to document her neurological assessment.
13. On or about January 30, 2008, while employed at Baylor Health Care System, Dallas, Texas, Respondent failed to obtain Hematocrit results prior to transferring Patient LTR #01121110-002 to the floor status post bilateral knee replacements. Respondent's conduct deprived the physician of essential information regarding the patient's Hematocrit levels, which may have been required to implement timely medical intervention, in the event that the patient was experiencing internal bleeding from the surgical procedure.
14. On or about January 30, 2008, while employed at Baylor Health Care System, Dallas, Texas, Respondent failed to administer 2 grams of Ancef IVBP and 7 Mg Coumadin to Patient LTR# 01121110-002, at 2000, as ordered. Respondent's conduct exposed the patient to risk of non-efficacious treatment, which may have prolonged the patient's recovery.
15. On or about January 30, 2008, while employed at Baylor Health Care System, Dallas, Texas, Respondent failed to document the discharge assessment of Patient LTR #01121110-002. Respondent's conduct deprived subsequent caregivers of essential information on which to base their ongoing medical decisions.
16. In response to Findings of Fact Numbers Thirteen (13) through Fifteen (15), Respondent states that she took over care of this patient from another staff nurse, who informed her that everything had been done and that they were waiting for a room assignment for the patient. When Respondent reviewed the pages of physician's orders, she noticed a HCT level was supposed to have been drawn on arrival to the PACU. The other staff nurse drew the HCT level and sent it to the lab. Respondent admits that she failed to follow-up and check the results. In response to her failure to administer Ancef and Coumadin, Respondent states that Coumadin is always administered at 1800 and Respondent did not assume care of this patient until 1822. Respondent admits that she failed to administer the medications, as did the other staff nurse. Respondent states that she did assess the patient prior to discharge, but admits that she failed to document the assessment.

17. On or about January 30, 2008, while employed at Baylor Health Care System, Dallas, Texas, Respondent inaccurately documented that Patient Medical Record #48018832 had a foley catheter, when one was not present. Respondent's conduct created an inaccurate medical record on which subsequent caregivers would rely on to base their ongoing medical care.
18. In response to Finding of Fact Number Seventeen (17), Respondent admits that she inaccurately documented the patient had a foley catheter and accepts responsibility for her mistake.
19. On June 26, 2008, Respondent successfully completed a continuing education course entitled *Nursing Documentation* by the Professional Healthcare Education Service, which would have been a requirement of this Order.
20. On June 28, 2008, Respondent successfully completed a continuing education course entitled *Nursing Ethics & Nursing Jurisprudence* by the Professional Healthcare Education Service, which would have been a requirement of this Order.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violations of Section 301.452(b)(10)&(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §§217.11(1)(A), (B), (C), (D)&(3)(A) and 217.12 (1)(A) & (B), (4) & (11)(B).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 732304, heretofore issued to NICOLE RENEE PENA, including revocation of Respondent's license to practice professional nursing in the State of Texas.
