

Respondent's vocational nursing employment history continued:

04/1989 - 10/2000	Staff Nurse	Denton County Mental Health Mental Retardation Center Denton, Texas
11/2000 - 02/2004		Not employed in nursing.
03/2004 - 09/2005	Staff Nurse	People's Clinic Denton, Texas
10/2005 - 03/2006		Unknown
04/2006 - unknown	Staff Nurse	Progressive Life of North Texas Lewisville, Texas

6. At the time of the initial incident, Respondent was employed as a Staff Nurse with Progressive Life of North Texas, Lewisville, Texas, and had been in this position for one (1) year and two (2) months.
7. On or about June 5, 2007, through September 12, 2007, while employed with Progressive Life of North Texas, Respondent failed to physically assess Resident SBP after receiving more than six (6) complaints from family and staff regarding the resident's skin rash and severe itching. According to the medical record, Respondent did not document or perform a complete skin assessment at any time, and photos of the resident's skin show a graphic progression of a scabies infection. Respondent's conduct may have contributed to both the resident suffering unnecessarily and to a delay in the resident receiving appropriate treatment for a severe scabies infection.
8. In response to the incident in Finding of Fact Number Seven (7), Respondent states that she did assess the resident and that she made an appointment with the resident's physician, who ordered medication. According to Respondent, the medication was filled and sent to the house with an "inservice" sheet instructing the staff on how to use the medication. Respondent indicates that she again saw the resident after being notified that the resident was aggressive, and she states that she then discussed both the rash and agitation with the resident's sister. The sister took the resident to a different physician, who diagnosed the scabies and ordered medication. Respondent concludes by stating that after the new medication was received, all the residents were treated and none showed any symptoms, that she sent the resident to the physician when her symptoms showed up, that she followed the physician's orders, and that she believes she did her best for the resident.
