

Respondent's vocational nursing employment history continued:

December 2007-Present

Unknown

6. At the time of the incident in Finding of Fact Number Seven (7), Respondent was employed as a Staff Nurse with Clifton Lutheran Sunset Home, Clifton, Texas, and had been in this position for approximately thirteen (13) years.
7. On or about November 12, 2007, while employed with Clifton Lutheran Sunset Home, Clifton, Texas, Respondent failed to transcribe a physician's order to withhold "Glyburide 1.25mg PO x 2 weeks" for Patient MR#92020 onto the Medication Administration Record (MAR), as ordered. Subsequently, said patient continued to receive Glyburide in error for two weeks. Respondent's failure exposed Patient MR#92020 to the risk of harm including but not limited to: hypoglycemia, and adverse reaction to the medication.
8. On or about November 28, 2007, while employed with Clifton Lutheran Sunset Home, Clifton, Texas, Respondent falsely documented that the administration of "Glyburide 1.25mg" for Patient MR# 92020 had been withheld for two weeks in the patient's MAR, from November 13, 2007 through November 28, 2007, when in fact it had been administered. Respondent's action was deceiving and was likely to injure the patient in that subsequent caregivers would have relied on an inaccurate medical record to base their plan of care.
9. In response to Findings of Fact Numbers Seven (7) and Eight (8), Respondent states that it was another licensed vocational nurse who failed to transcribe the order to withhold Glyburide onto the MAR for Patient MR#92020. Respondent states that when this failure was discovered, the patient had already received Glyburide for several days. Respondent adds that when she altered Patient MR#92020's records, she was attempting to correct the errors, and was not intending to falsify any documentation. Respondent states that she made a mistake, and that she had the best interest of her patient in mind.
