6. Petitioner presented the following in support of his petition:
 - 6.1. Certified copies of the Probation Order (dated July 24, 1992) and Deferment of Adjudication of Guilt, Order for Deferred/Installment of Fine and Costs, and Conditions of Probation in Cause Number 636087, filed in the 183rd District Court of Harris County, Texas, indicating Petitioner's Nolo Contendere plea to the indictment of Indecency with a Child; a second degree felony.

- 6.9. Letter of support, dated September 5, 1996, from Paulette Suzanne Server, RN.
- 6.10. Letter of support, dated August 27, 1996, from Petitioner's mother, Mrs. Sidney Guidry.
- 6.11. Letter of support, dated September 4, 1996, from Michael D. Cox, PhD, Associate Professor and Director, Clinical Psychology Training Program, Director, Sexual Abuse Treatment Program, Baylor College of Medicine, Houston, Texas.
- 6.12. Verification of successful completion of the continuing education requirements.
- 6.13. Letter, dated November 5, 1996, from Michael D. Cox, Ph.D., indicating that a psychological evaluation was conducted on Petitioner in April and May of 1991. Dr. Cox indicates that Petitioner still receives therapeutic services on a follow-up basis since his completion of the active phase of their Sexual Abuse Treatment Program at Baylor College of Medicine. Dr. Cox also indicates that Petitioner was treated with antidepressant medication in the past.

7. At the request of the Board, Petitioner submitted to a forensic psychiatric evaluation which was conducted on March 31, 1997, by Milton Altschuler, MD, F.A.P.A., P.A., Houston, Texas. Dr. Altschuler subsequently submitted the results of the testing to the Board for consideration. Dr. Altschuler's findings state in part:

. . . (Petitioner's) primary psychiatric problem deals with a personality disorder with histrionic, disassociative and passive-aggressive elements. Under stress, there is a mild decompensation of his normal defenses. . . . (a portion of the Petitioner's psychiatric testing) indicated only a superficial self-awareness of his actions and the consequences of his actions. He has a low tolerance for frustration, which had led to the sexual acting-out. He is easily frustrated and seeks attention and approval. . . . Under stress, there is a mild decompensation of his normal defenses. This had led to sexual acting-out of various kinds. . . . There has been no element of hurtful or destructive fantasies throughout. His primary approach on a direct level has been that of exhibitionism. . . . Since 1991 he has engaged in individual and group psychotherapy with Michael Cox, Ph.D., and Baylor College of Medicine in the Sexual Abuse Clinic. . . . He has obtained fair insight into the precipitants of his sexual acting-out, and has appeared to have them under good control at this time. The primary issue deals with his avoidance of continued stress, which can possibly re-precipitate the sexual acting-out. This would have to be stress that is sustained over a long period of time without recognition of his work. . . . I do not feel that (Petitioner) is at risk of danger to patients he may see in a hospital setting. Nor do I believe that his working in a hospital setting would incur the stress necessary to re-precipitate the sexual acting-out. . . . On the whole, (Petitioner) has been operating quite well, with no destructive impulsive behavior since 1992.

CONCLUSIONS OF LAW

1. Pursuant to Article 4525, Revised Civil Statutes of Texas, as amended, the Board has jurisdiction over this matter.
2. Pursuant to Article 4525(c)(2), Revised Civil Statutes of Texas, as amended, the Board may refuse to issue or renew a license, and may set a reasonable period that must lapse before reapplication.
