7. On or about September 2, 1999, while employed with Arlington Memorial Hospital, Arlington, Texas, Respondent failed to order laboratory tests on Medical Record #M716427 as the physician ordered. Respondent's actions unnecessarily exposed the patient to the risk of harm to a delay in treatment and to the risk of inappropriate treatment by subsequent personnel who would base their plan of treatment on incomplete information.

8. On or about September 2, 1999, while employed with Arlington Memorial Hospital, Arlington, Texas, Respondent failed to obtain a urine sample for lab work on Medical Record #M716427 as the physician ordered. Respondent's conduct unnecessarily exposed the patient to the risk of adverse side effects from the medication, such as urine retention.
12. On or about October 1 1999, while employed with Arlington Memorial Hospital, Arlington, Texas, Respondent failed to document the administration of 20 mg of Bentyl IV to Medical Record #M373807 on the Medication Administration Record or anywhere in the nurse's notes. Respondent's conduct unnecessarily exposed the patient to the risk of inappropriate treatment by subsequent personnel who would not have the benefit of complete and accurate information.

8. Respondent states that when she saw the order on the Medication Administration Record (MAR) she noticed that it was written for oral route only. Respondent states she assumed this was an oversight since she had experience working with hospice patients and most medications were allowed to be given both oral and rectal route.
