10. Respondent states that she did take more than the prescribed dose of her pain pills for a short time, due to not being able to sleep during the day. Respondent states she has a chronic condition with her back and she's been under the care of her Pain Management Doctor since 2001.
11. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.
