

Respondent's professional nursing employment continued:

10/04 - 3/06	Case Manager	Lubbock State School Lubbock, Texas
4/06 - 6/06	Staff Nurse	Harris Methodist Ft. Worth, Texas
7/06 - Present	Staff Nurse Obstetrics	Baylor All Saints Ft. Worth, Texas

6. At the time of the initial incident in Finding of Fact Number Seven (7), Respondent was employed as a Case Manager with Lubbock State School, Lubbock, Texas, and had been in this position for one (1) year.
7. On or about October 3, 2005, through January 5, 2006, while employed as a Case Manager with Lubbock State School, Lubbock, Texas, Respondent failed to provide Care Plans and/or Revisions to Care Plans for MPI Number 1527 (D.C.) regarding the diagnoses of gastritis, pneumonia, respiratory infections or pressure ulcers. Care Plans are individualized plans regarding the care specific to a patient and their diagnoses and are to be followed by the staff providing care to the patient. MPI Number 1527 was a fifty (50) year old male with severe mental retardation due to Down's Syndrome. Respondent's conduct resulted in an inaccurate, incomplete medical record, and was likely to injure the patient in that subsequent care givers would rely on the documented care plan interventions in order to determine and provide further patient care.
8. On or about January 4, 2006, while employed as a Case Manager with Lubbock State School, Lubbock, Texas, Respondent failed to complete and/or document a comprehensive assessment in the medical record for MPI Number 1527 (D.C.) and also failed to notify the physician of the resident's fever and abdominal pain. On January 3, 2006, MPI #1527 ran a low grade temperature of 100.5 and complained of abdominal pain with diarrhea. On January 5, 2006, he was diagnosed with pneumonia and was transferred to University Medical Center, Lubbock, Texas, where he died 10 days later. An autopsy was not performed. Respondent's conduct resulted in an inaccurate, incomplete medical record, and was likely to injure the patient in that subsequent care givers would rely on her documentation in order to provide further patient care.
9. In response to the incidents in Findings of Fact Numbers Seven (7) and Eight (8), Respondent admits that Case Managers are responsible for creating and/or updating patient care plans but adds, "I do not recall if I was contacted by the LVN assigned to the home or the direct care staff on January 4, 2006. If any of our individuals became sick on the home, the LVN assigned to that home would notify the physician for that home or, if after hours, the physician on-call or the campus RN supervisor." Respondent adds that residents could also be transferred to the infirmary to be assessed by the staff there, then transferred to University Medical Center for treatment if needed.
