

6. At the time of the initial incident, Respondent was employed as a Staff Nurse with Baylor Medical Center at Irving, Irving, Texas, and had been in this position for one (1) year and eleven (11) months.
7. On or about November 16, 2006, while employed with Baylor Medical Center, Irving, Texas, Respondent administered Demerol 75 mg intravenously (IV) to Patient Medical Record Number 283466 instead of intramuscular (IM), as ordered by the physician. Respondent's conduct was likely to injure the patient, in that administration of Demerol 75 mg IV instead of IM may have exaggerated the side effects of Demerol, including respiratory depression.
8. On or about November 16, 2006, while employed with Baylor Medical Center, Irving, Texas, Respondent falsely documented in the multidisciplinary notes of the medical record of Patient Medical Record Number 283466 that the aforementioned dose of Demerol was given IM. Respondent's conduct resulted in an inaccurate medical record and was likely to injure the patient in that subsequent care givers would rely on her documentation in order to provided further patient care.
9. On or about November 16, while employed with Baylor Medical Center, Irving, Texas, Respondent delegated to another staff member to monitor the patient closely and asked the other staff member not to tell anyone else about the medication error. Respondent failed to notify the physician and/or the nursing manager or complete an incident report until the following Monday when the occurrence was discovered by the manager. Respondent's conduct was likely to injure the patient in that neither the patient's physician nor other health care team members would have complete information on which to make clinical care decisions for the patient.
10. In response to the incidents in Findings of Fact Numbers Seven (7) through Nine (9), Respondent states that she did not intentionally enter a false notation. She recognized her administration error and told the on-coming nurse to observe the patient. If she had intentionally falsely documented, she would not have told anyone. Respondent believes it was a poor judgement call not to notify the physician or complete an incident report, and admits that she should have done so before leaving the unit that morning, however, she was exhausted and went home.
