BEFORE THE TEXAS BOARD OF NURSING

\*\*\*\*\*

In the Matter of Registered Nurse §  
License Number 641734 § AGREED  
issued to DEEETTA CORNELIUS § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Bo considered the matter of DEEETTA CORNELIUS, Registered License Number 641734, hereina referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order offered on November 11, 2008, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived representation by counsel, informal proceedings, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received an Associate Degree in Nursing from Amarillo College, Amarillo, Texas, on December 1, 1996. Respondent was licensed to practice professional nursing in the State of Texas on June 30, 1997.
5. Respondent's nursing employment history includes:

6/1997 to 2/1998	Staff Nurse	Moore County Hospital District Dumas, Texas
3/1998 to 9/1998	Unknown	

Respondent's nursing employment history continued:

10/1998 to 11/1999	Office Nurse	Donald J. Maraist, MD Dumas, Texas
12/1999 to Present	Staff Nurse/Charge	Moore County Hospital District Dumas, Texas

6. At the time of the initial incident, Respondent was employed as a Charge Nurse with Moore County Hospital District, Dumas, Texas, and had been in this position for seven (7) years and five (5) months.
7. On or about May 10, 2007, while employed with Moore County Hospital, Dumas, Texas, and assisting in providing nursing care to non-intubated Patient Number V00000417920 in the Intensive Care Unit, Respondent inappropriately administered Diprivan, an anesthetic agent, to the patient after a physician ordered the medication and the assigned nurse voiced concerns about the medication. Per hospital policy, Diprivan is a drug that Registered Nurses are not to administer as it is not considered a conscious sedation drug, the patient is to be monitored continuously, and a physician must be at the bedside at all times as the patient is at great risk for losing their ability to maintain an open airway and to handle their own secretions. Respondent was told by the assigned nurse that she "thought Diprivan was one of the medications that nurses could not give." Nonetheless, Respondent obtained the medication, administered a bolus via pump, and then set the pump for a continuous infusion. There was no physician at the bedside and the patient was not continuously monitored. Respondent's conduct was likely to injure the patient in that he was heavily sedated and could have suffered respiratory failure and possible demise.
8. In response to the incident in Finding of Fact Number Seven (7), Respondent states that the patient was violent and agitated and that there were police officers at the bedside to help control him. She called the physician and received an order to administer Diprivan to sedate the patient. Respondent further states "In retrospect," she would have:
  - Been aware of the Hospital Policy regarding Conscious Sedation and the administration of Diprivan;
  - Insisted the physician be present at the bedside during administration of Diprivan;
  - Had the Emergency Room Physician at the bedside during the infusion if the attending Physician could not be at the bedside;
  - Contacted the Administrator on call if neither Physician were available; and
  - Maintained continuous monitoring of the patient's respiratory status, vital signs, Oxygen saturation, and cardiac status.
