

5. Respondent's professional nursing employment history includes:

9/2007 - 2/2008	Emergency Department Staff Nurse	Northwest Texas Healthcare System Amarillo, Texas
3/2008 - Present	Unknown	

6. At the time of the initial incident, Respondent was employed as a Staff Nurse with Northwest Texas Healthcare System, Amarillo, Texas, and had been in this position for three (3) months.
7. On or about December 7, 2007, while employed as a Staff Nurse in the Emergency Department at Northwest Texas Healthcare System, Amarillo, Texas, Respondent failed to timely obtain point of care cardiac enzyme testing and an electrocardiogram (EKG) for Patient Number 75698092, as ordered. Although the physician ordered the procedures at 18:27 and an intravenous site was established at 19:40, the cardiac enzyme testing and EKG were not completed until after the patient lost consciousness and was transferred to a trauma room. While in the Emergency Department, the patient experienced a cardiac arrest, was resuscitated, transferred to the Cardiac Catheterization Lab, and expired six (6) hours later. Respondent's conduct was likely to injure the patient in that delay in obtaining the EKG and cardiac enzyme results may have delayed the patient's diagnosis and treatment for myocardial infarction, which may have contributed to the patient's subsequent demise.
8. On or about February 16, 2008, while employed at Northwest Texas Healthcare System, Amarillo, Texas, Respondent documented in error the administration of Tegretol to Patient Number 76108869, instead of Tylenol, as ordered. Respondent's conduct resulted in an inaccurate medical record and was likely to injure the patient in that subsequent care givers would rely on Respondent's documentation in order to provide further patient care and would not have accurate information on which to base their decisions.
9. In response to the incident in Finding of Fact Number Seven (7), Respondent stated that the physician ordered the tests while the nursing staff was attempting to restart the patient's IV(intravenous access) site. It took three (3) nurses, two (2) attempts each before the site was established. At that time, the lab specimens were obtained and taken to the lab, but Respondent indicates that he was unaware that the lab would not automatically process the order and that he needed to call and specify the test needed to be run in the lab, as it was also possible to run it in the Emergency Department as well. Respondent also states that the patient was unable to lie still long enough for the EKG to be run successfully because of the severe pain she was experiencing and that she refused x-rays until she received pain medication.

### CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violations of Section 301.452(b)(10)&(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §§ 217.11(1)(B), (1)(C),(1)(D)&(1)(M) and 217.12(1)(B)&(4).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 746816, heretofore issued to JASON MICHAEL HATHAWAY, including revocation of Respondent's license to practice professional nursing in the State of Texas.
