

6. On or about May 31, 2004, while employed as a Staff Nurse with Texas Tech Health Sciences Center, Correctional Managed Care, and assigned to Texas Department of Criminal Justice, Allred Unit, Iowa Park, Texas, Respondent failed to initiate Cardiopulmonary Resuscitation (CPR) once she verified that Inmate Number 689236 was without respirations and pulse. The inmate was pronounced deceased a short time later. Respondent's conduct deprived the inmate of appropriate resuscitative measures, which may have contributed to his demise.
7. In response to the incident in Finding of Fact Number Six (6), Respondent states that she received a call from a correctional officer stating that they had a non-specific problem with an inmate. Respondent states that when she arrived at Building Three (3), approximately five (5) minutes after the call, she found "the offender in question on the shower floor." Respondent states that she "asked the offender if he was ok and shook his shoulder," and when the inmate did not respond to her verbal stimuli, Respondent performed a sternal rub, to which she received no response. Respondent states that the inmate had no carotid pulse and no respirations, and that she instructed a security guard to call medical for both assistance and a gurney because no medical equipment was on the scene. Respondent states that another staff vocational nurse arrived a few minutes later with the gurney and helped her transport the inmate to the medical building, where the other staff vocational nurse started CPR and she called for an ambulance. Respondent states that the cardiac monitor showed no activity but that she and another staff vocational nurse continued CPR until the ambulance arrived. At that time, Respondent states the Emergency Medical Technicians took over CPR on the inmate and notified the physician of the inmate's lack of response to their CPR efforts.
