FOR THE STATE OF TEXAS

In the Matter of Registered Nurse           §        AGREED  
License Number 661791                       §  
issued to SANDRA BAJEK                   §        ORDER

On this day the Board of Nurse Examiners for the State of Texas, hereinafter referred to as the Board, considered the matter of SANDRA BAJEK, Registered Nurse License Number 661791, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal conference, notice and hearing, and agreed to the entry of this Order offered on May 4, 2007, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived representation by counsel, informal conference, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received a Baccalaureate Degree in Nursing from The University of Texas at El Paso, El Paso, Texas, in May 1999. Respondent was licensed to practice professional nursing in the State of Texas on July 6, 1999.
5. Respondent's professional nursing employment history includes:

07/1999 - Unknown	Staff Nurse	Providence Memorial Hospital El Paso, Texas
-------------------	-------------	--

6. At the time of the initial incident in Finding of Fact Number Seven (7), Respondent was employed as a Staff Nurse in the Labor and Delivery Post Anesthesia Care Unit (PACU) with Providence Memorial Hospital, El Paso, Texas, and had been in this position for five (5) years and seven (7) months.
7. On or about February 2, 2005, while employed with Providence Memorial Hospital, El Paso, Texas, Respondent inappropriately placed warmed saline bottles in the axillary and popliteal areas of Patient Number 000546948, even though the patient's Plan of Care did not include the use of warmed saline bottles as an appropriate intervention and indicated that no interventions were to be implemented unless the patient's temperature fell below 96 degrees. Respondent's conduct was likely to injure the patient from burns due to improper and/or inappropriately applied warming interventions.
8. On or about February 2, 2005, while employed with Providence Memorial Hospital, El Paso, Texas, Respondent failed to timely assess the temperature of the aforementioned Patient Number 000546948 after warmed saline bottles had been applied to the patient for fifteen (15) minutes, even though Respondent obtained the patient's other vital signs at that time. After an additional five (5) minutes, Respondent obtained the patient's temperature and removed the warmed saline bottles. The next day it was determined that the patient had suffered second degree burns to her popliteal areas. Respondent's conduct may have contributed to the patient suffering second degree burns.
9. On or about February 2, 2005, while employed with Providence Memorial Hospital, El Paso, Texas, Respondent failed to document in the medical record of the aforementioned Patient Number 000546948 that warmed saline bottles were applied to the patient's popliteal and axillary areas in order to raise the patient's body temperature, even though Respondent documented that warm blankets and warmed IV fluids were used. Later, Respondent failed to document in the medical record that any of the warming interventions were discontinued. Respondent's conduct may have been deceptive, resulted in an incomplete medical record, and was likely to injure the patient in that subsequent care givers would not have accurate information on which to base their care decisions.
10. In response to the incidents in Findings of Fact Numbers Seven (7) through Nine (9), Respondent states that there was no unit specific protocol for the patient's condition and that the patient's temperature was 95.8 degrees the first time she checked it. Respondent states that when she re-checked the temperature, it was 96 degrees. Respondent states she took the patient's temperature five (5) minutes later than the other vital signs because PACU is a "high traffic area with nurses, doctors, patient's family, and visitors entering and exiting at all times...and is attended by the nurse assigned to the recovery room only."

### CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violations of Section 301.452(b)(10)&(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §§217.11(1)(A),(1)(B),(1)(C),(1)(D) &(3)(A) and 217.12(1)(A),(1)(B),(4)&(6)(A).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 661791, heretofore issued to SANDRA BAJEK, including revocation of Respondent's license to practice professional nursing in the State of Texas.
