

Respondent's professional employment history continued:

05/86 - 05/98	RN	Olsten/Kimberly Quality Care Dallas, Texas
11/88 - 11/99	RN/Nurse Supervisor	Medical Group of Texas Dallas, Texas
11/99 - 11/00	Nurse Manager	North Texas Children's Hospital Dallas, Texas
11/00 - 05/01	Nurse Manager	Vitas Hospice Dallas, Texas
05/01 - 08/04	Director of Clinical Services (DCS)	Samaritan Care Hospice Dallas, Texas
08/04 - 12/04	DCS	Trinity Hospice Dallas, Texas
01/05 - 09/06	RN	Odyssey Health Care Dallas, Texas
10/06 - present	unknown	

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with Odyssey Health Care, Dallas, Texas, and had been in this position for approximately one (1) year and nine (9) months.
7. On or about August 25, 2006, while employed with Odyssey Health Care, Dallas, Texas, Respondent inaccurately administered Morphine IVP, as ordered by the physician, to Patient Medical Record Number 6114/45506 in that she administered Morphine 10 mg IVP through the patient's epidural line. Respondent's conduct was likely to injure the patient in that failing to administer medications as ordered by the physician might have resulted in the patient suffering from adverse reactions.
8. On or about August 25, 2006, while employed with Odyssey Health Care, Dallas, Texas, Respondent administered Morphine in excess dosage of the physician's order to Patient Medical Record Number 6114/45506, in that she administered Morphine epidurally instead of through an intravenous push. Because an epidural line works directly on the spinal fluid, the effects of the Morphine are greatly enhanced. Respondent's conduct was likely to injure the patient in that the administration of Morphine in excess dosage of the physician's order could result in the patient suffering from adverse reactions.

9. In response to Finding of Fact Numbers Seven (7) and Eight (8), Respondent states:

“The only available route to administer the Morphine Bolus IV was through [patient’s] Epidural (due to the patient's severe edema on his torso and all of his extremities). Thus, the only route I had to give the medication was through the Epidural...I believed/understood that Dr. Narayanan was advising me to administer the Morphine Bolus IV through his epidural line.”
