In the Matter of Vocational Nurse License Number 166053 § AGREED  
issued to LINDA MARIE ROBINSON § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of LINDA MARIE ROBINSON, Vocational Nurse License Number 166053, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Sections 302.402(a)(10) and 301.452(b)(2),(10)&(13), Texas Occupations Code. Respondent waived informal conference, notice and hearing, and agreed to the entry of this Order offered on July 3, 2008, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived informal conference, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice vocational nursing in the State of Texas.
4. Respondent received a Certificate in Vocational Nursing from Central Texas College, Killeen, Texas, on December 19, 1996. Respondent was licensed to practice vocational nursing in the State of Texas on January 6, 1998.
5. Respondent's complete vocational nursing employment history is unknown.

6. At the time of the initial incident in Finding of Fact Number Ten (10), Respondent was employed as a Licensed Vocational Nurse with Bell County Nursing and Rehabilitation Center, Temple, Texas.
7. On or about August 5, 2002, Respondent entered a plea of Nolo Contendere and was Convicted of DRIVING WHILE INTOXICATED (a Class B Misdemeanor offense committed on March 31, 2002), in the Criminal Court at Law No. 6 of Harris County, Houston, Texas, under Cause No. 1108782. As a result of the conviction, Respondent was sentenced to confinement for a period of three (3) days in the Harris County Jail, with three (3) days credit given for time already served, and was ordered to pay a fine.
8. On or about June 28, 2004, Respondent submitted an online renewal application to the Board of Nurse Examiners for the State of Texas in which she provided false, deceptive, and/or misleading information, in that she answered "No" to the question:

Were you convicted of a misdemeanor other than a minor traffic violation since your last renewal?
9. In response to Findings of Fact Numbers Seven (7) and Eight (8), Respondent states the following: "This was my first offense. I had nothing else on my record. I had no intention to lie in any way whatsoever to the Board of Nurse Examiners (BNE). My licensure renewal date was coming fast and furious and it needed to be done before I was out of compliance. This was an honest mistake. Upon completion of any of my employee application/packets I have never hidden this misdemeanor when asked. I have always clearly stated it was a non-contested DWI."
10. On or about November 10, 2006, while employed as a Licensed Vocational Nurse with Bell County Nursing and Rehabilitation Center, Temple, Texas, Respondent either failed to adequately document or failed to assess, evaluate, monitor and intervene for Client J. A., after the client sustained a thermal burn injury while showering. The patient required transfer to an acute care facility for treatment. Respondent's conduct may have resulted in an incomplete medical record or delay in treatment. The client later died thirty-seven (37) days later.
11. In response to Finding of Fact Number Ten (10), Respondent states that she did not fail to assess, evaluate, monitor and perform appropriate nursing intervention for Client J. A. after the client sustained a burn while being given a shower by the assigned CNA. She said that her nursing notes clearly document what was done for this resident. The resident was assessed. Upon assessment, redness was noted without blister formation. In using her nursing judgment, cool water was run over the resident's affected areas, cool compresses were applied, the resident was medicated and monitored throughout her shift. First aid was rendered per protocol as her nursing judgment. She states that she did not go out of her nursing scope of practice but used her nursing judgment. She further responds that she

followed protocol and used her nursing judgment in caring for this resident and at no time failed to assess, evaluate, monitor and perform appropriate nursing intervention for Client J. A.'s burn injury in the shower.

12. On or about November 10, 2006, while employed as a Licensed Vocational Nurse with Bell County Nursing and Rehabilitation Center, Temple, Texas, Respondent may have failed to adequately and completely report and document the status of Client J. A. to other health care team members and to the physician. Respondent's conduct could have caused injury to the client from clinical decisions based upon incomplete assessment information.
13. In Response to Finding of Fact Number Twelve (12), Respondent states that she did document the status of Client J.A. to other health care team members and to the physician. The doctor was faxed as he has always requested the nurses to do in the past in the evenings/after hours. The ADON was notified and assured Respondent that she would contact the DON and Administrator.
14. On or about November 10, 2006, while employed as a Licensed Vocational Nurse with Bell County Nursing and Rehabilitation Center, Temple, Texas, Respondent either incorrectly administered Acetaminophen to Client J.A., at the wrong dosage or incorrectly documented the amount administered. Respondent administered the Acetaminophen without a physician's order to the patient for "comfort." Respondent's conduct was likely to injure the patient in that failure to administer medications as ordered by the physician could have resulted in non-efficacious treatment.
15. In response to Finding of Fact Number Fourteen (14), Respondent states that she checked Client J.A.'s Medication Administration Record (MAR) prior to administering Acetaminophen. A PRN order was found for Acetaminophen and the correct dosage was administered as ordered. Client J.A. has had a PRN order for Acetaminophen for a very long time. She remembers looking in the Medication Administration Record (MAR) prior to administering Acetaminophen to this resident. Respondent asserts that what was written in her nursing note for this resident, in reference to the administration of Acetaminophen, was clearly a clerical error, and the fact still remains that an order for PRN Acetaminophen was present and the correct dosage was administered as ordered.
16. February 16, 2008, Respondent completed the course Physical Assessment Theory, which would be required under this Order.

March 8, 2008, Respondent completed the course Documentation of Nursing Care: Recording and Reporting, which would be required under this Order.

On or about March 1, 2008, Respondent completed the Nursing Jurisprudence and Ethics course, which would be required under this Order.

On or about April 6, 2008, Respondent completed the course Physical Assessment Clinical, which would be required under this Order.

#### CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove a violations of Section 301.452(b)(1)&(13), Texas Occupations Code, 22 TEX. ADMIN. CODE §217.11(1)(B),(C),(D),(M),(P)&(2)(a), 22 TEX. ADMIN. CODE §217.12(1)(A)&(10)(B), and 22 TEX. ADMIN. CODE §239.11(8)&(29)(A)(eff. to 9/28/04).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Vocational Nurse License Number 166053, heretofore issued to LINDA MARIE ROBINSON, including revocation of Respondent's license to practice vocational nursing in the State of Texas.

#### ORDER
