Executive Director of the Board

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Registered Nurse § AGREED
License Number 713493 §
issued to MARIO ERNESTO ORTIZ § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Boa considered the matter of MARIO ERNESTO ORTIZ, Registered Nurse License Number 713493, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal conference, notice and hearing, and agreed to the entry of this Order offered on July 8, 2008, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived representation by counsel, informal conference, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received a Baccalaureate Degree in Nursing from The University of Texas at El Paso, El Paso, Texas, on August 31, 2004. Respondent was licensed to practice professional nursing in the State of Texas on February 10, 2005.
5. Respondent's nursing employment history includes:

02/2005 - 11/2005	Staff Nurse	Del Sol Medical Center El Paso, Texas
-------------------	-------------	--

Respondent's nursing employment history includes:

12/2005 - Present Unknown

6. On or about December 27, 2004, Respondent was issued an Order of Conditional Eligibility by the Board of Nurse Examiners for the State of Texas. A copy of the December 27, 2004, Order of Conditional Eligibility, Findings of Fact, Conclusions of Law, and Order is attached and incorporated by reference as part of this order.
7. At the time of the initial incident in Finding of Fact Number Eight (8), Respondent was employed as a Staff Nurse in the ICU at Del Sol Medical Center, El Paso, Texas, and had been in this position for eight (8) months.
8. On or about October 31, 2005, while employed as a Staff Nurse in the Intensive Care Unit (ICU) at Del Sol Medical Center, El Paso, Texas, Respondent failed to appropriately and timely intervene while caring for Patient V701646, who was being treated for bilateral pulmonary embolism (blood clot in lungs). The previous nurse had incorrectly set the infusion rate for the intravenous Heparin and Respondent did not verify the physician's order to determine the correct infusion rate. The Partial Thromboplastin Time (PTT), which is a lab test that determines how long it takes for blood to clot and is used to help calculate the dosing of Heparin, was 38 seconds during the shift of the previous nurse, below the therapeutic goal which is generally 70-100 seconds. When Respondent received the results of the PTT, it had decreased further to 28 seconds. The physician was not notified until three (3) hours after Respondent received the results of the PTT, at which time orders were received to increase the rate of the Heparin infusion. Respondent's conduct was likely to harm the patient from non-efficacious treatment.
9. On or about October 31, 2005, while employed as a Staff Nurse in the ICU at Del Sol Medical Center, El Paso, Texas, Respondent falsely documented in the medical record of the aforementioned Patient Number V701646. Respondent falsely documented an earlier time of physician notification and receipt of physician's orders when he documented the physician's order, and when he documented in the Flow Sheet and in the Nurse's Notes. Respondent's conduct was deceptive and resulted in an inaccurate medical record.
10. On or about November 5, 2005, while employed as a Staff Nurse in the ICU at Del Sol Medical Center, El Paso, Texas, Respondent failed to timely notify the physician of a critical lab value of Troponin regarding Patient Number V703781. Troponin levels are tested to diagnose a heart attack; the presence of Troponin is an indicator of damage to heart muscle. The patient was admitted and treated for respiratory failure with suspected cardiac arrest. The lab notified Respondent of the critical level of Troponin at 1212 hours. Facility policy requires notification of the physician within fifteen (15) minutes of receipt of results of a critical value; however, Respondent failed to notify the physician. Respondent's conduct was likely to injure the resident in that it deprived the physician of information required to institute timely medical interventions.

11. In response to the incidents in Findings of Fact Numbers Eight (8) through Ten (10), Respondent states that as a new nurse this was the first time he had a patient on a Heparin infusion, that he had received no previous training on Heparin IV administration, and that he did not realize the previous nurse was using the wrong Heparin Protocol Sheet. Respondent states that he did not address the PTT result at the time he obtained it from the computer because the patient was his "stable patient," while his second patient was not, and he believed his priority was the "unstable patient" and he "acted accordingly." Regarding the documentation of time, Respondent states that he accidentally documented the incorrect times (when using military time) and asserts that the documentation was a "clerical error," not intentional falsification. Regarding Patient Number V703781, Respondent states that when the lab called to report another critical Troponin level, he was very busy at the time and he believed that Dr. Cepeda knew about the previous critical Troponin level.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violations of Section 301.452(b)(10)&(13), Texas Occupations Code, and 22 TEX. ADMIN. CODE §§ 217.11(1)(A),(1)(B),(1)(C), (1)(D),(1)(M),(1)(P)&(1)(R) and 217.12(1)(A),(1)(B),(4)&(6)(A).
4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 713493, heretofore issued to MARIO ERNESTO ORTIZ, including revocation of Respondent's license to practice professional nursing in the State of Texas.

MARIO ERNESTO ORTIZ	§	ORDER OF
PETITIONER for Eligibility for	§	CONDITIONAL ELIGIBILITY

6. There is no evidence of any subsequent criminal conduct.
7. In a written statement to the Board, Petitioner states that he did not disclose his offense because his lawyer informed him that it would not be necessary to disclose, that it was similar to getting a traffic ticket for speeding and would not appear on his record.

9. The Executive Director's review of the grounds for potential ineligibility has been made on the basis of the information provided by Petitioner.
10. Petitioner has sworn that his past behavior conforms to the Board's professional character requirements. Petitioner presented no evidence of behavior which is inconsistent with good professional character.

2. Petitioner has submitted a petition in compliance with Section 301.257 *et seq.*, Texas Occupations Code.
3. Petitioner's criminal history reflects criminal conduct which is grounds for denial of a license under Section 301.452 *et seq.*, Texas Occupations Code.

4. Petitioner shall immediately notify the Board of any fact or event that could constitute a ground of ineligibility for licensure under Section 301.452, Texas Occupations Code.
5. The Board may license an individual who has been previously convicted, adjudged guilty by a court, pled guilty or pled nolo contendere to any crime whether or not a sentence was imposed upon consideration of the factors set out in 22 Texas Administrative Code §213.28 and evaluating the direct relationship to nursing according to Chapter 53, Section 53.001 *et seq.*, Texas Occupations Code.
6. The Board may license an individual with prior behaviors inconsistent with the Board's character requirements if, upon evaluation of the factors in 22 Texas Administrative Code §213.27, the Board is satisfied that the individual is able to consistently conform his conduct to the requirements of the Nursing Practice Act, the Board's Rules and Regulations, and generally accepted standards of nursing practice.
