6. At the time of the incident, Respondent was employed as a Vocational Nurse with AMN Healthcare, and had been in this position for two (2) months.
7. On or about March 1, 2013, while employed as a Vocational Nurse with AMN Healthcare, San Diego, California, and on assignment with Lakeside Nursing and Rehab, Lubbock, Texas, Respondent lacked fitness to practice vocational nursing, in that she exhibited slurred and rambling speech. Subsequently, she was transferred to Covenant Medical Center, Lubbock, Texas, for treatment. Respondent informed hospital staff that she had accidentally overdosed on her pain medication and had taken a ninety (90) day supply of the medications in less than one week to control her pain. Upon discharge, the Respondent's diagnoses included Narcotic abuse and depression. Respondent's condition could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.
8. In response to Finding of Fact Number Eight (8), Respondent states: "On February 17, 2013, I was not feeling well but reported anyway because no other coverage was available. I was clearly not able to work and the administrator called an ambulance. I was admitted to Covenant Medical Center because I was having Neurological symptoms including slurred and rambling speech. The Electroencephalogram (EEG) showed seizure activity but all other tests were negative. Dr. DeToledo diagnosed a seizure or transient ischemic attack (TIA) of unknown origin. I was started on Keppra for three weeks and was tapered off successfully. There have been no further symptoms or episodes."
9. On March 10, 2014, the Board received a notarized statement from Respondent voluntarily surrendering the right to practice nursing in Texas. A copy of Respondent's notarized statement, dated March 7, 2014, is attached and incorporated herein by reference as part of this Order.

10. The Board policy implementing Rule 213.29 in effect on the date of this Agreed Order provides discretion by the Executive Director for consideration of conditional reinstatement after proof of twelve (12) consecutive months of abstinence from alcohol and drugs followed by licensure limitations/stipulations and/or peer assistance program participation.
11. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation(s) of 22 TEX. ADMIN. CODE §217.12(1)(A),(1)(E),(4),(5)&(10)(A).

7/07 - 7/08	Staff Nurse Ears/Nose/Throat	Texas Tech Health Sciences Clinic Lubbock, Texas
8/08 - Present	Unknown	

6. At the time of the initial incident in Finding of Fact Number Seven (7), Respondent was employed as a Staff Nurse with Texas Tech Health Sciences Clinic, Lubbock, Texas, and had been in this position for ten (10) months.

7. On or about May 27, 2008, while employed with Texas Tech Health Science Clinic, Lubbock, Texas, Respondent failed to transfer Patient Number W197884 to the correct department after the physician ordered hyperbaric therapy for the patient. Instead, Respondent mistakenly transferred the patient to the Vascular Clinic, which did not offer hyperbaric treatments. Respondent conduct delayed medical treatment in that the hyperbaric treatment had to be rescheduled in the correct department.
8. On or about June 10, 2008, while employed with Texas Tech Health Science Clinic, Lubbock, Texas, Respondent failed to:
  - Correctly document why Patient Number W209034 was being seen;
  - Document why Patient Number W376827 was referred to an orthopedic physician when the patient had a history of papillary thyroid cancer and had presented complaining of a "knot" in the area of the right clavicle; and
  - Correctly document which side of the parotid of Patient Number W930494 had the squamous cell carcinoma.Respondent's conduct resulted in inaccurate, incomplete medical records and was likely to injure the patients in that subsequent care givers would rely on her documentation in order to provide further patient care.
9. On or about June 30, 2008, while employed with Texas Tech Health Science Clinic, Lubbock, Texas, Respondent failed to schedule Patient Number W037326 for a follow up CAT Scan six (6) weeks after a procedure, as ordered. Respondent's conduct may have delayed medical treatment.
10. In response to the incidents in Findings of Fact Numbers Seven (7) through Nine(9), Respondent admits that she transferred the patient in Finding of Fact Number Seven (7) to the wrong department because she was not familiar with the treatment that was ordered. In Finding of Fact Number Eight (8), Respondent admits that she incorrectly documented why the patient was being seen and the incorrect side of the parotid; however, she denies that she failed to document why the patient was seeing the orthopedic physician. Respondent also denies that she failed to schedule the patient in Finding of Fact Number Nine (9) for the follow-up CAT Scan. Respondent asserts that the patient was scheduled for the scan but did not show up because she wanted to have the scan done in New Mexico because of her Medicaid coverage.
