BEFORE THE TEXAS BOARD OF NURSING

\*\*\*\*\*

In the Matter of § AGREED  
Registered Nurse License Number 600575 §  
issued to SHARON MAE BUTCHER § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of SHARON MAE BUTCHER, Registered Nurse License Number 600575, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived notice and hearing and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on May 4, 2015.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received an Associate Degree in Nursing from South Plains College, Levelland, Texas, on December 17, 1993. Respondent was licensed to practice professional nursing in the State of Texas on March 15, 1994.
5. Respondent's nursing employment history includes:
 

03/1994 - 02/2013	Staff Nurse	Covenant Health System Lubbock, Texas
-------------------	-------------	--

Respondent's nursing employment history continued:

03/2013 - Present      Unknown

6. On or about December 12, 2007, Respondent was issued the sanction of Remedial Education through an Agreed Order by the Board. A copy of the December 12, 2007, Agreed Order, including the Findings of Fact, Conclusions of Law, and Order, is attached and incorporated herein by reference as part of this Order.
7. At the time of the initial incident, Respondent was employed as a Staff Nurse with Covenant Health System, Lubbock, Texas, and had been in that position for eighteen (18) years and three (3) months.
8. On or about June 14, 2012, while employed as a Staff Nurse with Covenant Health System, Lubbock, Texas, and caring for Patient Medical Account Number 0006705564, Respondent failed to administer Procrit as ordered and failed to document the patient's refusal of the medication or notify the ordering physician that Procrit was not administered as ordered. Respondent's conduct resulted in the patient missing an ordered dose of a medication prescribed by the physician that is used to treat anemia.
9. On or about January 19 and 20, 2013, while employed as a Staff Nurse with Covenant Health System, Lubbock, Texas, and caring for Patient Medical Account Number 0006920585, Respondent, on two (2) separate occasions, inappropriately administered a double dose of potassium chloride by giving the ordered dose twice at 9a.m., on both days, when it was ordered to be given once in the morning and once in the evening (BID). Respondent's conduct exposed the patient to risks of receiving too much potassium, which include: muscle fatigue, paralysis and abnormal heart rhythms.
10. On or about January 20, 2013, while employed as a Staff Nurse with Covenant Health System, Lubbock, Texas, and caring for the aforementioned Patient Medical Account Number 0006920585, Respondent failed to clarify an order written by the physician at 11:55a.m. for a one time dose of K-Dur (potassium chloride), when she, earlier that morning, had administered potassium chloride twice, inappropriately. Respondent's conduct potentially exposed the patient to being over medicated with potassium chloride, if the next shift saw the order but did not know it had not yet been clarified.
11. On or about January 20, 2013, while employed as a Staff Nurse with Covenant Health System, Lubbock, Texas, and caring for the aforementioned Patient Medical Account Number 0006920585, Respondent inappropriately administered Synthroid at 7:30a.m., without a physician's order, and failed to administer Lexapro, Lasix and Norvasc, as ordered by the physician at 11:55a.m. Respondent's conduct resulted in the patient receiving a medication that was not prescribed by the physician and potentially exposed the patient to risks of altered thyroid hormone levels, as well as resulted in the patient not being treated as per the physician's orders.

12. On or about January 20, 2013, while employed as a Staff Nurse with Covenant Health System, Lubbock, Texas, and caring for the aforementioned Patient Medical Account Number 0006920585, Respondent failed to apply Sequential Compression Devices, as per physician order. Respondent's conduct exposed the patient to risk of blood clots associated with decreased blood flow in the lower extremities, which could result in a stroke.
13. On or about January 19, 2013 and January 21, 2013, while employed as a Staff Nurse with Covenant Health System, Lubbock, Texas, and caring for the aforementioned Patient Medical Account Number 0006920585, Respondent did not administer Neupogen as ordered. Respondent's conduct exposed the patient to risk of infection, as this medication's purpose is to decrease a patient's risk of infection.
14. On or about January 21, 2013, while employed as a Staff Nurse with Covenant Health System, Lubbock, Texas, and caring for the aforementioned Patient Medical Account Number 0006920585, Respondent inaccurately documented that Neupogen was administered on January 20, 2013, without indicating this was a "late entry." Respondent's conduct resulted in an incomplete and inaccurate medical record and potentially exposed the patient from being administered the medication twice on January 20, 2013, if the next shift also gave the medication because they believed Respondent did not, as it was not documented.
15. In response to the incidents in Findings of Fact Numbers Eight (8) through Fourteen (14), Respondent states Patient Medical Account Number 0006705564 came from the doctor's office in the late afternoon for a blood transfusion and the transfusion was completed late in the evening. Respondent states the patient and family were very tired and did not want to wait for the pharmacy to send the Procrit. Respondent reports the patient requested to be discharged and planned to return the next morning to get the medication. In regards to administering potassium twice to Patient Medical Account Number 0006920585, Respondent states she reviewed and verified the Medication Administration Record (MAR) at the beginning of the shift, as per hospital policy, and both the MAR and physician orders indicated Potassium 40mEq BID. Respondent also states throughout the shift she did not see the doctor round, and the charge nurse did not inform her that the physician had changed the Potassium order. As a result, Respondent says she administered the medication per the MAR. In reference to the Neupogen administration on January 20, 2013, Respondent says she did administer Neupogen but did not document it because of shift change duties. Respondent reports she documented the medication the next morning (January 21, 2013). Respondent states the patient told two Nurse Aides that he/she did receive the medication.
