Executive Director of the Board

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of § AGREED
Registered Nurse License Number 594605 §
issued to ALETA CHERYL FLOWERS § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of ALETA CHERYL FLOWERS, Registered Nurse License Number 594605, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived notice and hearing and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on October 23, 2017.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received a Baccalaureate Degree in Nursing from Lamar University, Beaumont, Texas, on May 1, 1993. Respondent was licensed to practice professional nursing in the State of Texas on September 22, 1993.
5. Respondent's nursing employment history includes:

9/1993-9/2007	Unknown	
10/2007-5/2017	Registered Nurse	Baptist Hospitals of Southeast Texas Beaumont, Texas

Respondent's nursing employment history continued:

6/2017- Present Unknown

6. At the time of the incident, Respondent was employed as a Registered Nurse with Baptist Hospitals of Southeast Texas, Beaumont, Texas, and had been in that position for nine (9) years and six (6) months.
7. On or about April 28, 2017, through April 29, 2017, while employed as a Registered Nurse with Baptist Hospitals of Southeast Texas, Beaumont, Texas, and caring for Patient Number 120059418, a high risk pre-term patient receiving magnesium sulfate, Respondent documented fetal heart rate decelerations in the patient's medical record, but failed to implement any resuscitation measures aside from maternal position change. Additionally, Respondent failed to continuously assess the patient, and report the fetal status and continued decelerations to the patient's physician. Subsequently, the patient required an emergent cesarean section. Respondent's conduct exposed the patient and fetus to a risk of harm from complications, and deprived the physician of vital information that would be required to institute timely medical interventions to stabilize the patient's condition.
8. In response to the incident in Finding of Fact Number Seven (7), Respondent states that on the shift in question, there were numerous patients arriving in active labor and she was the only one available to triage them, even though patients on magnesium sulfate are supposed to be one to one care. Respondent states that despite this, she went into this patient's room hourly, and checked her blood pressure readings because that is what she was admitted for, which remained stable. Respondent states that it was not until late in the night that she was able to review the entire fetal monitoring strip and chart, at which time she noted a deceleration. Respondent states that she went to the patient's room and asked her to turn to her side, explaining to her that she needed to not lay on her back because the baby did not like that. Respondent adds that she monitored the strip for a while and did not see another deceleration until around 3-4 am, so she went and reminded the patient again not to lay on her back. Respondent states she thought the doctor was coming in to see another patient, but he did not arrive until after 6 am. Respondent states that had she known it would take the doctor so long to get there, she would have called him. Respondent adds that the baby's APGAR scores were low, but that was to be expected with a 33 week gestation on magnesium sulfate, and the baby recovered with no other complications.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.

2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation(s) of 22 TEX. ADMIN. CODE §217.11(1)(A),(1)(B),(1)(D),(1)(M)&(3)(A) and 22 TEX. ADMIN. CODE §217.12(1)(A),(1)(B)&(4).

The evidence received is sufficient cause pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 594605, heretofore issued to ALETA CHERYL FLOWERS, including revocation of Respondent's license(s) to practice nursing in the State of Texas.
