Executive Director of the Board

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of § AGREED
Registered Nurse License Number 738360 §
issued to DANIEL JULIAN HARMON § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of DANIEL JULIAN HARMON, Registered Nurse License Number 738360, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(9),(10),(12)&(13), Texas Occupations Code. Respondent waived notice and hearing and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on June 15, 2017.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing and agreed to the entry of this Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received a Baccalaureate Degree in Nursing from Texas Tech University, Lubbock, Texas, on August 11, 2006. Respondent was licensed to practice professional nursing in the State of Texas on February 13, 2007.
5. Respondent's nursing employment history includes:

02/07 - 01/16	RN	Covenant Health System Lubbock, Texas
---------------	----	--

Respondent's nursing employment history continued:

02/16 - Present Unknown

6. On or about February 2012, through March 2014, while licensed as a Registered Nurse in the State of Texas, Respondent may have lacked fitness to practice professional nursing in that he was diagnosed with mental health and substance abuse conditions. Respondent's condition could have affected her ability to recognize subtle signs, symptoms or changes in patients' conditions, and could have affected her ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing the patients in potential danger.
7. On or about January 30, 2014, while employed as a as a Registered Nurse with Covenant Health System, Lubbock, Texas, and enrolled in the Texas Peer Assistance Program for Nurses (TPAPN), Respondent engaged in the intemperate use of alcohol, in that he produced a specimen for a random drug screen that resulted positive for Ethyl Glucuronide (ETG) and Ethyl Sulfate (ETS), metabolites of alcohol (Ethanol). The use of alcohol by a Registered Nurse, while subject to call or duty, could impair the nurse's ability to recognize subtle signs, symptoms, or changes in a patient's condition, and could impair the nurse's ability to make rational, accurate, and appropriate assessments, judgments, and decisions regarding patient care, thereby placing a patient in potential danger.
8. On or about August 26, 2015, while employed as a Registered Nurse with Covenant Health System, Lubbock, Texas, Respondent engaged in unprofessional conduct in that he referred to patients by nicknames, such as "Fruit Loop", "Slashlie", and "Lord Calvert." Respondent's conduct was likely to cause emotional, physical, and/or psychological harm to the patient and could have interfered or disrupted this patients' treatment.
9. On or about October 22, 2015, while employed as a Registered Nurse with Covenant Health System, Lubbock, Texas, Respondent violated the boundaries of the nurse/client relationship and exceeded his scope of practice, in that he provided his email address to a patient because he believed the patient was mis-educated on her care plan and wanted to provide the patient with alternative treatment options. Respondent's conduct was likely to cause emotional injury to the patient and could have interfered or disrupted this patient's treatment. Additionally, Respondent's conduct exposed the patient unnecessarily to a risk of harm from interventions provided without the benefit of a physician's expertise.
10. In response to Findings of Fact Numbers Seven (7) and Eight (8), Respondent admits he has struggled with issues in the past, but has received treatment for these issues. Respondent also admits he did relapse in January 2014, but states he was taking Ambien, as prescribed, which has properties that may trigger relapse. Respondent states he has now been sober for more than two years. In response to Finding of Fact Number Nine (9), Respondent admits he would call patients by nicknames, but states it was good-natured and well-received by the patients. In response to Finding of Fact Number Ten (10), Respondent admits he gave the

patient his email address, and to interacting with the patient in a sympathetic and compassionate manner to encourage her in her recovery.

11. On or about May 5, 2017, Respondent submitted to an evaluation with Stephen A. Thorne, Ph.D. Dr. Thorne advised the evaluation indicated Respondent presently appears to have the capacity to practice nursing with reasonable skill and safety to patients, however any information to indicate that Respondent is not compliant with any and all recommended treatment, would be of significant concern to this examiner. Dr. Thorne recommends Respondent consider participating in individual therapy and believes it may be helpful for Respondent to establish a relationship (either formally or informally) with some type of mentor/authority figure, who can assist him in ensuring that he is avoiding any of the boundary/communication issues that have generated concern in the past.
12. The Board finds that there exists serious risks to public health and safety as a result of impaired nursing care due to intemperate use of controlled substances or chemical dependency.
