Respondent's conduct resulted in an inaccurate medical record, and was likely to injure the patient from clinical care decisions formulated based upon incomplete assessment information.

9. In response to the incidents in Findings of Fact Numbers Eight (8) and Nine (9), Respondent states that the patient was admitted on her shift and the physician was notified by phone, no orders were changed, and she was to use the cast care protocol. Respondent states that the patient had a cast on his lower left from below the knee to the foot, where only the tops of three toes extended out of the cast. Respondent states that in order to assess the pedal pulse, she put her fingers in the cast area above toes and pulses were checked behind the knee.
