BEFORE THE TEXAS BOARD OF NURSING

\*\*\*\*\*

In the Matter of § AGREED ORDER  
Registered Nurse License Number 908647 § FOR  
issued to LATASHA MARIE HUSBAND § KSTAR PILOT PROGRAM

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of LATASHA MARIE HUSBAND, Registered Nurse License Number 908647, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived notice and hearing and agreed to the entry of this Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on October 10, 2017.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status.
4. Respondent received a Baccalaureate Degree in Nursing from the University of Texas at Arlington, Arlington, Texas, on May 1, 2016. Respondent was licensed to practice professional nursing in the State of Texas on September 20, 2016.
5. Respondent's nursing employment history includes:

09/2016-02/2017	Registered Nurse	Baylor Scott and White Waxahachie Waxahachie, Texas
Unknown-Present	Registered Nurse	Texas Health Presbyterian Dallas Dallas, Texas

6. At the time of the initial incident, Respondent was employed as a Registered Nurse with Baylor Scott and White Waxahachie, Waxahachie, Texas, and had been in that position for four (4) months.
7. On or about January 4, 2017, while employed as a Registered Nurse in the Emergency Department (ED) with Baylor Scott and White Waxahachie, Waxahachie, Texas, Respondent failed to timely assess a follow-up blood glucose level for Patient Number 102830 after intravenous (IV) dextrose 50% was administered to correct the patient's low blood glucose levels. Respondent's conduct exposed the patient unnecessarily to a risk of harm in that continued low blood glucose levels may have gone undetected.
8. On or about January 15, 2017, while employed as a Registered Nurse in the ED with Baylor Scott and White Waxahachie, Waxahachie, Texas, while caring for Patient Number 241081, Respondent incorrectly documented the patient had absent lung sounds, although the attending physician had documented clear lung sounds. Respondent's conduct exposed the patient unnecessarily to a risk of harm in that subsequent care givers would rely on Respondent's documentation to make decisions for further care.
9. On or about January 15, 2017, while employed as a Registered Nurse in the ED with Baylor Scott and White Waxahachie, Waxahachie, Texas, Respondent inappropriately removed Patient Number 326286 from the monitors and from supplemental oxygen, and allowed the patient to ambulate to the bathroom alone, despite the fact that the patient had been experiencing abnormally low blood pressures. Subsequently, Respondent's clinical coach found the patient alone, attempting to maneuver her IV pole out of the bathroom, and when the patient was placed back on the monitor, her oxygen level was in the 70s. Respondent's conduct exposed the patient unnecessarily to a risk of falling and loss of consciousness.
10. On or about January 16, 2017, while employed as a Registered Nurse in the ED with Baylor Scott and White Waxahachie, Waxahachie, Texas, Respondent failed to document in the medical record information related to the medication regimen of Patient Number 256022, who was ordered to be transferred to another facility with diagnoses of acute intracranial hemorrhage and acute hemorrhagic stroke. Respondent's conduct exposed the patient unnecessarily to a risk of harm in that subsequent care givers would rely on Respondent's documentation to make decisions for further care.
11. In response to the incidents in Findings of Fact Numbers Seven (7) through Ten (10), Respondent states she does not believe the Emergency Department (ED) was a good place to start her nursing career, as the fast pace was not conducive to her learning. Respondent states she made an incorrect selection in the electronic documentation system when she documented absent lung sounds. Respondent states she was assisted by another nurse who told her documenting the patient's medications is not a priority and that Respondent should document a physical assessment before EMS arrived to transfer the patient.
