Katherine A. Thomas
Executive Director of the Board

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of § AGREED ORDER
Advanced Practice Registered Nurse License §
Number AP108413 with Prescription §
Authorization Number 2144 §
& Registered Nurse License Number 526289 §
issued to MARY E. MULLIN §

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of MARY E. MULLIN, Advanced Practice Registered Nurse License Number AP108413 with Prescription Authorization Number 2144, and Registered Nurse License Number 526289, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may be subject to discipline pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code.

Respondent waived notice and hearing and agreed to the entry of this Agreed Order approved by Katherine A. Thomas, MN, RN, FAAN, Executive Director, on October 7, 2020.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license(s).
2. Respondent waived notice and hearing, and agreed to the entry of this Agreed Order.
3. Respondent's license to practice as a professional nurse in the State of Texas is in current status. Respondent's license to practice as an advanced practice registered nurse in the State of Texas with authorization as a Family Nurse Practitioner is in current status with Prescription Authorization Number 2144 in current status.

4. Respondent received a Baccalaureate Degree in Nursing from West Texas A&M University, Canyon, Texas, on May 1, 1985. Respondent completed a Family Nurse Practitioner Program from West Texas A&M University, Canyon, Texas, on May 13, 1997. Respondent was licensed to practice professional nursing in the State of Texas on August 28, 1985. Respondent was licensed to practice advanced practice registered nursing in the State of Texas with authorization as a Family Nurse Practitioner with Prescription Authorization on January 30, 1998.

5. Respondent's nursing employment history includes:

8/1985-04/1990	Unknown	
01/1990-12/1996	RN	Baptist St. Anthony's Hospital Amarillo, Texas
12/1996-12/1997	Unknown	
01/1998-03/2007	APRN	Regency Health Network Tyler, Texas
03/2007-Unknown	APRN	24 th Street Clinic Amarillo, Texas

6. On or about March 23, 2010, Respondent was issued the sanction of Warning with Stipulations through an Order of the Board. On or about March 31, 2011, Respondent successfully completed the terms of the Order. A copy of the March 23, 2010, Order is attached and incorporated herein by reference as part of this Agreed Order.

7. On or about July 1, 2014, through December 7, 2015, while employed as a Family Nurse Practitioner and owner of Twenty Fourth Street Clinic, Amarillo, Texas, Respondent's practice fell below the minimum standards of nursing practice in that she engaged in non-therapeutic prescribing practices. More specifically, Respondent issued prescriptions for controlled substances to patients: AS, BH, BS, CD, CW, DB, DF, DP, DW, EW, FW, IK, JD, MD, MPP, OVW, PaWy, PeWa, SP, STH, TH, and WLD, without conducting appropriate assessments to justify her prescribing practices. Respondent continually prescribed controlled substances without exhausting conservative evidence-based treatments and/or establishing a reliable and clinically meaningful therapeutic benefit before resorting to non-evidence based, high-risk treatments; and failed to appropriately monitor the patients for aberrant, drug-taking behavior after repeatedly prescribing controlled substances to the patients.

8. In response to Finding of Fact Number Seven (7), Respondent states she serves a horribly underserved demographic in Amarillo. Respondent states providing care, especially pain management care to an indigent and distressed community, is not always black and white and she has never prescribed a medication without an eye-to-eye and face-to-face examination. Respondent states every one of her prescriptions has precisely conformed to the practice and prescriptive delegation protocols. Respondent states complete medical records were prepared and kept on all of the identified patients. Patients were monitored as reflected in the charts and abusive and drug seeking patients were immediately dismissed upon receipt of information regarding such behavior. Respondent states she routinely exceeded the minimum standards for prescribing or ordering drugs. Respondent denies all of the allegations made by the Board in its complaint, formal charges, and in this order. Respondent contends the Board filed its complaint without any probable cause against Respondent. Respondent contends that although the Board named 22 patients in its complaint, not one of those patients has ever made a complaint against Respondent, and all of those 22 patients would testify in Respondent's behalf. Respondent contends that the Board's complaint was based on a statistical review of prescription records that revealed Respondent had prescribed mild pain medication to more patients than some unwritten Board standard allows. The Respondent filed a detailed, footnoted response to the Board's complaint on May 16, 2016. Nearly three years later, the Board, having had great difficulty finding an expert that would support its complaint, filed a 380-page report from a Georgetown pain specialist, who applied the standard of care for physicians to Respondent, and who Respondent contends made numerous obvious factual errors about what was stated in the charts and ignored all the facts established by Respondent in her response. Respondent contends the Board's expert demonstrated no knowledge or sympathy for a practice such as Respondent's, serving uninsured patients below the poverty line, with a broad range of economic and medical problems. The Board's "expert" took the position that no pain medication could be prescribed to any patient until the patient had undergone an MRI, psychiatric care, chiropractic, yoga, Tai Chi, massage and acupuncture, most if not all of which are either economically or physically impossible for Respondent's patients. The Respondent filed a 45 page detailed and footnoted response to the Board's expert on August 26, 2019 with 341 pages of exhibits. Neither the Board nor the Georgetown doctor has every refuted or even responded to any of the points raised in either of the two responses filed by the Respondent. Neither the Board nor the Georgetown doctor have ever responded to the fact that (1) 68% percent of the charts in issue were reviewed and approved by Respondent's supervising physician; (2) all the prescriptions were in accord with the Protocols that Respondent's supervising physician had created to govern Respondent's practice; (3) Respondent referred many of the patients for psychiatric consult; (4) many of the patients had serious proven (by X-rays, MRIs and other diagnostic tests) physical pain producing ailments that were diagnosed by physicians including for example bone fractures, Haglund's deformity, a 109 square inch lipoma, bone spurs, rheumatoid arthritis, fibromyalgia, degenerative disc disease, lumbar radiculopathy, lumbar myelopathy, trochanteric bursitis of the right hip; and (5) while the patients were under the care of physicians the medical records reflect the patients were prescribed the very same or stronger pain medications than Respondent prescribed to the very same patients for the very same conditions during the period when the patients were under her care. The Respondent will be 70 years old before the scheduled hearing in this case. She

retired from practice on November 30, 2019, sold her clinic and has no intention of going back to work. She and her husband have spent over \$100,000 and literally months of time responding to the Board's charges. The lawyers say it will cost another \$35,000 to prepare for and appear at the hearing. The Respondent's clinic was her mission, which she effectively did out of Christian love, and from which she earned little or no income during the years in question. Over Respondent's objection, the Board has now insisted on having a "Zoom" hearing, so that the Board will try Respondent without her ever having a chance to see the Board or her accusers face to face, and which is impossible to do in a document intensive case like this, where thousands of pages of charts have been placed in issue by the Board. For these reasons, the Respondent has agreed to this order, confident that God will ultimately be the righteous judge between her and the Board. She forgives all the Board members and staff and the Georgetown doctor who have been borne false witness against her and slandered her in this case.

9. Formal Charges were filed on March 2, 2020.
10. Respondent by her signature expresses her desire to voluntary surrender the licenses.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.
3. The evidence received is sufficient to prove violation(s) of 22 TEX. ADMIN. CODE §217.11 (1)(A),(1)(B),(1)(C),(1)(M),(1)(N),(1)(P),(1)(Q),(1)(R),(1)(T),(4)(A)&(4)(B) and 22 TEX. ADMIN. CODE §217.12 (1)(A),(1)(B),(1)(E)&(4); 221.12(a); 221.13(a)&(b); 222.4(a); and 222.8(a)&(b).
4. The evidence received is sufficient cause pursuant to Section 301.452(b)(10)&(13), Texas Occupations Code, to take disciplinary action against Advanced Practice Registered Nurse License Number AP108413 with Prescription Authorization Number 2144, and Registered Nurse License Number 526289, heretofore issued to MARY E. MULLIN.
5. Pursuant to Section 301.463(d), Texas Occupations Code, this Agreed Order is a settlement agreement under Rule 408, Texas Rules of Evidence, in civil or criminal litigation.

5. Respondent's professional nursing employment history includes:

1985-4/1990	Unknown
-------------	---------

Respondent's nursing employment history continued:

1/1990-12/1996	Nurse/PRN Baptist St. Anthony's Hospital Amarillo, Texas
12/1996-1/1998	Unknown
1/1998-3/2007	Family Nurse Practitioner Regence Health Network Tyler, Texas
3/2007-Present	Family Nurse Practitioner 24 th Street Clinic Amarillo, Texas

6. At the time of the initial incident in Finding of Fact Number Seven(7), Respondent was employed as a Family Nurse Practitioner with 24th Street Clinic, Amarillo, Texas, and had been in this position for approximately eight (8) months.
7. On or about August, 2007, through September 2007, while employed as a Family Nurse Practitioner with 24th Street Clinic, Amarillo, Texas, Respondent failed to adequately assess and evaluate Patient KM in that Respondent prescribed medications for hypertension and hyperlipidemia for said patient without obtaining baseline laboratory tests. Respondent's failure to establish baseline laboratory values exposed Patient KM to the risk of harm in that Respondent did not have a reference point from which she could establish the efficacy and/or adverse effects of the prescribed medication.
8. In response to Finding of Fact Number Seven(7), Respondent states that she provides services in a medically under served area where most patients are uninsured. Respondent adds that patient KM was uninsured and could not afford the cost of any laboratory tests. Respondent states that she felt that she needed to help this patient who had limited resources.

11. In response to Findings of Fact Numbers Nine (9) and Ten(10), Respondent states that like most patients she attends to, Patient CM was uninsured and could not afford the cost of any radiological tests. Respondent states that the patient informed her that the cause of his pain was a "bulging disc" as diagnosed by a neurosurgeon at an earlier time. Respondent adds that she felt that she needed to help this patient by prescribing him pain medication. Respondent states that an MRI performed in September 2007, confirmed Patient CB's claim. Respondent states that she did not know, nor was she informed by anyone, that Patient CB was a substance abuser, and that she promptly discontinued any narcotic prescriptions to said patient once he exhibited drug seeking behavior.
12. On or about November 11, 2007, while employed as a Family Nurse Practitioner with 24th Street Clinic, Amarillo, Texas, Respondent inappropriately prescribed a stimulant "Adipex" to Patient JC in that said patient had a history of hypertension. Respondent's action exposed Patient JC to the risk of harm in that "Adipex" is contraindicated for Patients with hypertension.
13. In response to Finding of Fact Number Twelve (12), Respondent states that Patient JC vehemently denied any history of hypertension, and his blood pressure at Respondent's clinic reflects that it was not hypertensive. Respondent states that there is one elevated blood pressure reading taken at Respondent's clinic, but the patient insisted that it was an error by the digital machine at the clinic. Respondent states that the patient's family physician never found patient JC to be hypertensive.

CONCLUSIONS OF LAW

1. Pursuant to Texas Occupations Code, Sections 301.451-301.555, the Board has jurisdiction over this matter.
2. Notice was served in accordance with law.

4. The evidence received is sufficient cause pursuant to Section 301.452(b), Texas Occupations Code, to take disciplinary action against Registered Nurse License Number 526289, heretofore issued to MARY E. MULLIN, including revocation of Respondent's license to practice professional nursing in the State of Texas.
