

BEFORE THE TEXAS BOARD OF NURSING

In the Matter of Registered Nurse § AGREED
License Number 730759 §
issued to DANIEL JOHN McRAE § ORDER

On this day the Texas Board of Nursing, hereinafter referred to as the Board, considered the matter of DANIEL JOHN McRAE, Registered Nurse License Number 730759, hereinafter referred to as Respondent.

Information received by the Board produced evidence that Respondent may have violated Section 301.452(b)(10)&(13), Texas Occupations Code. Respondent waived representation by counsel, informal conference, notice and hearing, and agreed to the entry of this Order offered on November 18, 2007, by Katherine A. Thomas, MN, RN, Executive Director, subject to ratification by the Board.

FINDINGS OF FACT

1. Prior to the institution of Agency proceedings, notice of the matters specified below in these Findings of Fact was served on Respondent and Respondent was given an opportunity to show compliance with all requirements of the law for retention of the license.
2. Respondent waived representation by counsel, informal conference, notice and hearing, and agreed to the entry of this Order.
3. Respondent is currently licensed to practice professional nursing in the State of Texas.
4. Respondent received an Associate Degree in Nursing from Angelo State University, San Angelo, Texas, on May 13, 2006. Respondent was licensed to practice professional nursing in the State of Texas on July 6, 2006.
5. Respondent's professional nursing employment history includes:

07/2006 to Present	Staff Nurse	Shannon West Texas Medical Center San Angelo, Texas
--------------------	-------------	---

6. At the time of the incidents in Findings of Fact Numbers Seven (7) through Nine (9), Respondent was employed as a Staff Nurse with Shannon West Texas Medical Center, San Angelo, Texas, and had been in this position for eight (8) months.
7. On or about March 2, 2007, while employed as a Staff Nurse with Shannon West Texas Medical Center, San Angelo, Texas, Respondent applied an abdominal binder to Patient Medical Record Number 7827015, who also had a gastrojejunostomy tube, without a physician's order. Respondent's conduct was likely to injure the patient from adverse reactions to interventions administered without the benefit of a physician's expertise, including complications from a possible occlusion of the patient's gastrojejunostomy tube.
8. On or about March 2, 2007, while employed as a Staff Nurse with Shannon Medical Center, San Angelo, Texas, Respondent failed to accurately and completely assess the condition and the patency of the gastrojejunostomy tube of the aforementioned Patient Medical Record Number 7827015, after he applied an abdominal binder. The binder occluded the patient's gastrojejunostomy tube at the skin level and created an abscess, which required the patient to undergo multiple subsequent surgeries to cleanse and close the large abscess site. Respondent's conduct resulted in the patient suffering the effects and pain of a large abscess, as well as the subsequent surgeries necessary to treat the abscess.
9. On or about March 2, 2007, while employed as a Staff Nurse with Shannon Medical Center, San Angelo, Texas, Respondent failed to accurately and completely document the assessment of the aforementioned Patient Medical Record Number 7827015, throughout the shift, in the medical record. Respondent's conduct resulted in an incomplete medical record and was likely to injure the patient in that subsequent care givers did not have accurate and complete information on which to base their decisions for further care.
10. In response to the incidents in Findings of Fact Numbers Seven (7) through Nine (9), Respondent states that he applied the binder at the patient's request after consulting with other nurses, that he noticed he had failed to completely document the patient's pain relief throughout the night, and that he admittedly was remiss in the charting of the patient's response to the abdominal binder as an intervention.
